The Maine Alumnus

Spring 1981

Better
bend
than
break.

How does a university
strengthen human vitality?

Chancellor Patrick E. McCarthy
and the Board of Trustees
of the University of Maine
request the honor of your presence at
a Celebration of
the University of Maine at Orono
on the occasion of the Inauguration of
Paul H. Silverman
as thirteenth President
on Monday, the second of February,
nineteen hundred and eighty-one
at two-thirty in the afternoon
Memorial Gymnasium, Orono, Maine

A Reception will follow in the Field House

**We've
Inaugurated**

**A New
President!**

"Inaugurate" means to begin or to start. As this issue of the *Alumnus* went to press in January, the university community and dignitaries from throughout the country gathered to join President Paul H. Silverman in a gala inaugural celebration during Winter Carnival Weekend, Jan. 30 to Feb. 2. During an informal interview beforehand, Silverman affirmed his commitment to see the university "go beyond the sustaining of humans to real growth and development."

The 13th president welcomed staff, students, alumni, congressional delegates, trustees and honored guests to the festivities, which included breakfast at the Bangor Community College, guided tours to research centers on campus, dancing, winter games, cultural events and a symposium on "The Quality of Life at UMO."

Traditional Winter Carnival happenings such as snow sculptures and "broomball" competitions were also arranged. An inaugural luncheon for all employees and guests, a special dining hall menu for students, a welcoming coffee for university personnel, and the inaugural ceremony and reception marked the official "beginning" for a new president.

A look back at the inaugural ceremonies of two of President Silverman's predecessors shows:
Howard R. Neville - January 1974
A major fund drive was started to build a museum and performing arts center and a multi-purpose sports arena.

Lloyd H. Elliott - October 1958
Increased liberal arts programs were promoted in order to bring humanities into parallel growth with sciences. "To build an ideal university," Elliott said, "is to unite in a noble purpose since there are few earthly things more beautiful."

About the Cover: "It's a technique I learned in art school a million years ago," quips art designer Arline Thomson, who drew this spring's cover by a method called "resist." So named because one medium (in this case white paint) actually resists another medium (ink), the style is adapted from true resist, or lithography, invented in 1796 and developed by Alois Senefelder, a Bavarian. The technique is a precursor of the elementary school crayon pictures which children color and then paint over and the method predates the modern offset printing process. The striking woodcut-like effect of this month's cover particularly pleases the artist.

INTRODUCING . . .

Call them mentors, advisers or just trusted friends. In the background these four contributing editors will counsel me and suggest editorial betterment. I thank Barbara Beers, promotional director for Maine Public Broadcasting Network; Richard R. Sprague, vice president for public relations, Bangor and Aroostook Railroad; Joni Averill, sports writer for the *Bangor Daily News*; and Dwight L. Rideout, Dean of Student Affairs at UMO.

- The Editor

The Maine Alumnus, published four times a year by the General Alumni Association, Alumni Center, University of Maine at Orono, Orono, Maine 04469. The General Alumni Association, Arthur Nicholson III, president, is an unincorporated association, classified as an educational and charitable organization as described in section 509(a)(1) of the Internal Revenue Code. Total number of copies printed per year, 150,000. Average per issue, 37,500. Send changes of address and letters to the editor to the business office six weeks prior to the next issue. \$10 to the Annual Alumni Fund is a subscription to *The Maine Alumnus* for one year. Third class postage paid at Orono, Maine 04469.

PALMER TAPPED FOR EDITOR'S JOB

With this issue of the *Maine Alumnus*, a Bangor-born journalist takes the editor's desk. Catherine M. Palmer, 31, worked as a news reporter for the *Portland Press Herald* and *Central Maine Morning Sentinel*. She succeeds Ed Rice who left the post in November.

Palmer graduated with a journalism degree from UMO in 1972 and is currently enrolled in the university's graduate business program. Her focus is publishing management.

Last year, under a grant from the Maine State Commission on the Arts and Humanities, Palmer promoted and distributed books by Maine authors.

For five years, she edited college-level textbooks for a Lewiston photo-compositor. Palmer also designed and built her family's first home in Buckfield. For two terms she served on the board of directors of the Maine Civil Liberties Union.

"I bring competence and enthusiasm to this magazine," Palmer said. "I am glad to be working for my alma mater and I want to produce an *Alumnus* which reflects the accomplishments of our alumni."

The General Alumni Association has published the *Maine Alumnus* at UMO since 1919.

Colleges Give Women Bigger Pay Raises

Colleges and universities this year gave bigger pay increases to women than to men on their faculties, but the women's average pay remains substantially lower than the men's, according to a survey conducted by the *Chronicle of Higher Education*.

The survey found that female faculty members are being paid an average of \$20,106 this year, compared with \$24,402 for males.

The salary figures are for full-time faculty members on 9-month or 10-month contracts for academic 1980-81.

Volunteer telephoners help fund campaign

Two phonathons in Boston and South Portland, Maine brought \$11,100 in contributions to the Annual Alumni Fund, according to Laura J. Irwin, assistant director of the fund drive.

Volunteers in South Portland tallied \$6,500 in pledges during a four-day telephone effort in October, according to Irwin. Brian Nason '71, Mike Shinay '69, Patty Shaw '70, Jim and Susan Good '71 and Verna Andrews, who organized 35 others, each worked as many as ten hours calling alumni, she said.

"Their pride and dedication to the

university was evident in their individual and collective totals," Irwin said.

Volunteer callers at Boston University in November, charted \$4,600 in donations, most of which were new pledges to the fund. Fred Quivey '68, president of the Greater Boston Alumni Club, and Brenda Kobelt '77 organized the Boston area project and 30 volunteers.

"Progress is being made toward our 1980-81 campaign goal of \$600,000," Irwin reported. "Our thanks to a body of alumni that keep UMO as a priority among their commitments," she said.

USS GROVES Launching Set; Warship Named for Alumnus

On Saturday, April 4, an hour after high tide, a new class of warship, the FFG29 guided missile frigate, will be launched in the name of Maine's native son, Stephen W. Groves '39.

An ensign in the U.S. Naval Reserve, Groves died heroically in the historic battle of Midway, according to Navy officials.

The honor, which follows the Navy's tradition of naming some ships after enlisted men, makes Groves the first Maine alumnus to be so celebrated.

For his bravery, Groves was posthumously awarded the Navy Cross for heroism. According to Navy records of his service, the 24-year-old fighter pilot:

"... fearlessly plunged into aerial combat against large formations of enemy aircraft threatening the American carriers in the battle of Midway. . . . He continued determined counterattacks against desperate odds until, finally overcome by sheer aerial superiority, he was shot down. . . ."

U.S. Secretary of the Navy, Edward Hidalgo, is expected to help launch the ship, according to officials at the Bath Iron Works, where the destroyer-like vessel was built.

In a letter to Evelyn Groves, 95-year-old mother of the war hero for whom the ship is named, Hidalgo wrote:

"All in the Navy will take great pride in having the namesake of your heroic son as a unit of the active fleet."

Although Mrs. Groves is not well enough to travel from her home in Newington, CT to Bath, Maine for the launch, she has reportedly asked her granddaughter, Mariam Landry, 28, of East Millinocket to officially christen the ship. Landry is the daughter of John Groves, 67, brother of the honored alumnus.

Stephen W. Groves, was born in Millinocket and graduated with the UMO class of 1939. He would have been 63 this year. He was an honors student in mechanical engineering. Groves enlisted in the Naval Air Corps in 1941 and was assigned to the USS *Hornet*. He was reported missing in action in June of the following year.

Ensign Stephen Groves

The spring launching of the USS *Groves* fulfills a promise the U.S. Navy made to Groves' family soon after the ensign was killed. Another destroyer escort that was to have been built in Boston and named for Groves, was reportedly scrapped when the war ended.

The USS *Groves*, the eighth ship of its class to be built at BIW and the first launched this year, is one of 18 frigates BIW is building for the Navy.

"This is the best ship in 20 years," enthused Rear Admiral J.D. Bulkeley when the first of the new frigates went through its sea trials.

According to a spokesman for the Groves family, Laurence W. Groves, '31, who at 71 now lives in Calais, many Millinocket area townspeople plan to attend the launching. "Oh, hell, yeah, we're all going," he said.

Another alumnus, a namesake nephew of the war hero, will be one of the spectators at the public send-off. Stephen W. Groves '68 of Winthrop is a major and a pilot for the Maine Air Guard and is now director of the Bureau of Water Quality Control for the Maine Department of Environmental Protection. He is married to Judith (Dyer) '68.

Building Renamed To Honor Crossland, Former GAA Head

A building that spans the 115-year history of the University of Maine at Orono will bear the name of a man who has served the same institution continuously for 67 years.

The University of Maine Board of Trustees authorized the naming of North Hall on the northern perimeter of the UMO campus for Charles E. Crossland of Orono, executive director of the General Alumni Association for 18 years, a former vice president for administration and a former acting president. It will be known as the Charles E. Crossland Alumni Center.

North Hall was known as the Frost House when it was acquired as one of two buildings comprising the campus of the Maine State College of Agriculture and the Mechanic Arts in 1866.

Dr. Crossland began his association with the University as a student, graduating with a bachelor of science degree in animal husbandry in 1917. From the time of graduation to the present, he has been associated with the University in a variety of capacities.

Following his retirement as vice president in 1961, Dr. Crossland served until 1966 as executive secretary of the University of Maine Pulp and Paper Foundation and from 1966 to 1974 served as publications editor for the Foundation. Currently he handles publicity for the Foundation's Summer Institute and serves as president of the Senior Alumni Association, which includes alumni who have celebrated their 50th class reunion.

Fewer Part-timers

UMO's overall enrollment this academic year was down by 312 students, mostly because of a drop in the number of part-time pupils.

Why the nationwide decline in part-time students but an increase in full-time enrollments? Educators quoted in the *Chronicle of Higher Education* believe a weak job market causes people to sign up for full-time study rather than combine work with schooling.

High School Juniors Invited to Enroll

Do you have a high school junior in the family?

Do you have a high school junior in the family who might get bored before summer's half over?

If so, tell your son or daughter to come knocking at classroom doors at the University of Maine, says Pat Baron, assistant to the vice president for academic affairs. Many faculty will be opening rooms for just such youngsters during UMO's 21st annual summer program.

"Qualified high school juniors can explore college life and share this experience with other equally talented students from other schools," Baron said.

UMO will admit as many as 100 pupils from high schools in the region for college-credited courses from July 13 to August 21, she said.

Each student may sign up for two courses and may use all university facilities. Invited to live in residence halls during the six weeks of classes, the youngsters may join in specially-designed cultural programs and weekend group outings, she said.

Applications must be submitted by April 15 to the Director of Admissions, Alumni Hall, University of Maine, Orono, Maine 04469.

"SURVIVAL FOOD" SUSTAINS UMO

Bananas, crackers, soda and other "survival" snacks were packed into lunch bags and delivered to 2400 students during final exam week in December. More than 75 ardent volunteers from the Student Alumni Association (SAA) and Gamma Sigma Sigma and Alpha Phi Omega service organizations bundled the food in brigade-like efficiency in UMO's gymnastics room. Junior Wendy Dwyer of Brunswick (at right) carries the finished products to waiting vans. Parents paid for the surprise deliveries and all proceeds will benefit the university. Last year the SAA contributed \$500 for the Performing Arts Center and predictions are that 1981's gift will double that amount. (Palmer photos).

What's coming up in the summer issue of the *Maine Alumnus*?

What is the Institute for Quaternary Studies? How did it get here? How did the University of Maine rate such a concentration of scientists and experts in the fields of ecology, geology and archaeology? Why does UMO have this one-of-a-kind organization? According to glacial geologist, Dr. Harold Borns, "this institute was built right and is unique."

SEE the summer issue of the *Alumnus* for the full story.

My sense is

by cathy palmer

This is my first season as editor of your magazine and with this issue I initiate an editorial column to introduce myself.

I am an editor by vocation, a parent by avocation and a human being by the laws of nature.

You are someone else. You have other jobs, other family structures, and other human feelings and opinions. I ask you to tell me what they are. Who are you? What do you want to read about? What are your priorities? What has happened to you since you graduated from the University of Maine?

I am the editor of the *Maine Alumnus*, but I am not the magazine. I do not own it, pay for it, nor claim any legal rights to its content. You are the magazine and I want to write your stories. I will research and report accounts of people whom you've not read about anywhere else.

My sense is that some of you would like to see your own news on these pages. If you are a man, has your story been written?

If you are a woman, does the inherently masculine name, *Alumnus*, say there won't be anything about professional women in these pages? Or about the new "domestic engineers" who choose to stay home?

I guess some stories have been overlooked. It doesn't matter why. I will take my assignments from alumni. Women and men both will be heard. Your willingness to speak and share will enliven your own magazine.

I'm working now on a story about a pilot study being developed on campus to incorporate research about and by women into the curriculum. It may have national significance.

Another story in the works is about Maryann Jerkofsky, an assistant professor of microbiology whose latest research about the effects of pesticides will appear in a professional journal this month.

I applaud changes that you alumni have pioneered while I was preoccupied building a house and canning tomatoes. I admit I did more complaining about the content of this magazine than helping to change things that didn't make sense to me.

My job now, as your editor, is to listen. How do you feel about your jobs, your families, and especially, your university?

I have learned that if I send out a signal of action, like-minded people will respond.

Any questions? Opinions?

With this issue of the *Maine Alumnus*, the editor opens space for letters and questions from readers. Please keep questions and letters brief, include a signature, address and telephone number. Names will not be withheld from published letters except in unusual circumstances. Anonymous and "open" letters, though also welcome, will not be published. The *Maine Alumnus* reserves the right to edit letters for libel, taste, clarity and to fit available space.

To the editor:

In the Winter 1980 issue of the *Maine Alumnus* I was pleased to see the article "Homecoming 1980" since my son was one of several Army recruiters in the ceremony. I was pleased with the picture of the Queen escorted by a handsome, well-decorated Army recruiter. I was disappointed to find no reference at all to the several Army recruiters who gave their time on a normal "off-duty" day to take part in the ceremony.

Although he was not in the picture, my son (SFC Don Ettinger) was one of the

men who took part. Another time I would hope that proper recognition be given these gallant soldiers.

Ruth S. Walker '76
Pittsfield, Maine

Corvallis, Oregon

To the editor:

I celebrated my fiftieth class reunion (1930) at U/M in June. The thoughts in (this) poem express my feelings about it:

(see page 20)

This column reflects
only the opinions of
the author.

Student life does not always lend itself to staying healthy. The quality of life for a University of Maine student may be less than ideal if s/he faces physical or mental disease, poor diet, or lack of sleep.

Holiday seasons, final exam weeks, or fruitless job searching can be lonely and depressing times for some. Anytime it seems there is no place to turn, the UMO Counseling Center is ready to help.

It may comfort parents and friends to know that problems caused by stress are recognized at UMO, where help is available to those who seek it.

Some 765 people did just that, according to the center's annual report. Figures also show that overall, each student averaged seven visits during the academic year. Some came more frequently, some less often.

The number of people seeking help swells to about 7,000 if you add those who participated in group therapy, outreach activities or consultation services, according to the data released this year.

The report shows a significant increase in the number of interviews devoted to relationship problems, depression, and alcohol and drugs.

Counseling Center Director Charles O. Grant '58 explains that doing whatever is necessary to meet the needs of the student is the cornerstone of his program's philosophy.

It's based on the principle that emotional problems may affect the family and friends of the counselee and sometimes these people are invited to join the recovery process.

Others have opposite needs, Dr. Grant says, and where it is *not* appropriate to talk to faculty, resident directors or parents, he leaves these people out.

"What we try to do is to help them look at their lives and help them find better ways of handling issues than they have traditionally used," he said in an interview with the *Alumnus*. "Whether that be a decision about what they are going to do with their lives, a resolution of a relationship issue, the handling of depression, or whatever."

"Not everyone who needs help will ask for it"

Dr. Charles Grant

Fraternities are the largest underrepresented group on campus, he said, because they live under an unspoken rule of not seeking outside help for problems.

"Better bend than break"

Counseling Center

UMO's Human

Dr. Charles Grant

The link between the two stories on these pages is the University of Maine's recognition of its burden to meet an assortment of human needs. Whether a student needs reassurance, an employee needs a lawyer, or a faculty member wants treatment for alcoholism, we all face problems daily which often impair our own usefulness. Many are grateful that UMO has helped them better bend to the forces in their lives.

Troubled clients who have difficulty asking for help may take desperate measures, he says. One client in December was a victim of suicide.

"The reason why he killed himself is not known," Dr. Grant said. "He seemed to be doing much better."

"We cannot make the assumption that the death had anything to do with university stress. Academic stress is a source of trouble for students, but a lot of people are undergoing the same sort of stress. The issue becomes how does the individual handle stress?"

Bothersome relationships with parents also drive some UMO people to seek help at either of the Counseling Center's two locations, Fernald Hall and the Cutler Health Center.

As the Counseling Center moves into its 20th year, the American Psychological Association may extend this spring full accreditation to the program as a training agency for interns.

Last year, only 12 U.S. universities had accredited counseling center internship training programs, Dr. Grant said.

"What it will mean to us," he added, "is that we have established a program that is professionally recognized and it will help us to get even better candidates."

"For licensing purposes, people like to graduate from an accredited internship program. We didn't even have interns until the summer of 1978, when we hired two half-time people," he explained. "We've come a long way in a short period of time."

Strengthens Liveliness

*Counselor Russell Whitman
(bearded) guides therapy group
to like living and changing*

Got a Problem? Here's One Doctor with Some Answers

In a collected, unhurried manner, Dr. Robert A. Graves '45 helps troubled people find what they need.

Within four months after he opened his doors, nearly 50 University of Maine employees walked into his office with personal dilemmas related to money, marriage, health, the law, alcohol abuse, or something else. In some measure, Dr. Graves gave each person what he or she really needed — information.

The call letters of his job are EAP, or Employee Assistance Program. Having spent his 21-year career in health service at UMO, Dr. Graves was charged with directing the new diagnostic and referral program.

And it's working. People seem to trust him, he believes, because of the medical profession's reputation for respecting confidences and because most people regard physicians as people to go to for help.

Handwritten note cards in a locked file, coded by number only, are his only record of clients. No one else has seen them.

Dr. Graves talked to the *Alumnus* about alcoholism.

"If the incidence of alcoholism in the general population is 10 percent," he said, "it is reasonable to assume the incidence among university employees is not much different."

EAP was initially a blue-collar industrial program for helping workers whose productivity on the job has fallen because of personal problems. Supervisors, who generally measure output, can tell when work performance is impaired.

Detecting troubled university personnel is harder, Dr. Graves explains, because productivity is not so easily measured in the academic setting.

Department heads, faculty, or employees who do the paperwork are all colleagues and this presents special problems for a university EAP in offering treatment services to the alcoholic, for example.

Difficulty arises in academic environments, he says, because the worst enemy of the alcoholic is the friend who covers for him or her.

"It becomes our job to convince colleagues that an alcoholic friend has a treatable illness"

Dr. Robert Graves

Although alcoholism is a fatal disease, the alcoholic almost never wants to get treated. "The true friend is the one who urges the alcoholic into a treatment program," he says.

In an effort to learn more about the disease, Dr. Graves was invited to sit in on AA (Alcoholics Anonymous) meetings. He also studies at the Alcohol Institute at Eastern Maine Medical Center in Bangor.

AA maintains that compulsive drinking is a disease and it has taken the medical profession a long time to see that they are probably right, he says.

Dr. Graves does not counsel. Rather, he provides. Whether he gives out a list of AA meetings, a selection of recommended lawyers, or telephone numbers for psychiatrists and counselors whom he trusts, Dr. Graves has the information employees need or he knows where to find it.

"You never know how much good you've done or failed to do," he said about his work as a referral steward, "but the program should save the university thousands of dollars."

(see page 20)

Three Alumni Develop Eastman Kodak Company's Corporate Picture

The Eastman Kodak Company, the nation's largest manufacturer of photographic products, has proven its "commitment to excellence" in education by contributing nearly \$4.4 million to many of the nation's leading colleges and universities, according to company officials. Our own University of Maine, a beneficiary of Kodak's generosity, has given the company many alumni, three of whom now fill top management positions at Kodak headquarters in Rochester, New York. The interviews which follow are in recognition of that joint venture between the alumni and the company."

When George Eastman went into business a century ago to make glass photographic plates, his premise was simple: give people products they want and need and success will follow.

Success did follow. In its first 100 years, the Eastman Kodak Company grew into a complex, multifaceted corporation known worldwide as a manufacturer of high-quality photographic products for amateur, professional and industrial use.

Today's tradition of looking to the future needs of Kodak's customers is the job of its president, Colby Chandler. Like George Eastman, his credo is simple. Set goals and then do what needs to be done to achieve them.

"Working hard is fun. Working is exhilarating because it gets you results, and most of us are spurred on by results."

Colby Chandler

(see page 11)

Colby Chandler

These three profiles of Colby H. Chandler, president of Kodak; Cornelius J. "Neil" Murphy, group vice president/general manager of the International Photographic Division; and David S. Greenlaw, president of Eastman Technology, Inc., were taken from interviews conducted by Craig S. Milner, a former editor of the *Maine Alumnus*."

Women Idols Set Standard For Kodak Executive

"I'm from Farmington, Maine and the most successful businesses in town are all managed and operated by women. It wasn't Chester Greenwood who ran the ear protector (earmuff) factory, it was his daughter. The power company was run by a woman, and my mother ran the fuel oil and coal business and an insurance business which she ran better than anyone before her. Women didn't seem to be concerned about being liberated in those days, they just went ahead and did what came naturally.

"I mention that because I think it has an influence over all of us. You can't escape the experiences of your youth. My favorite English teacher (another woman) told me on the last day of high school 'to take a little vacation and go to Boston' before I decided whether to spend the rest of my life in Farmington."

Colby Chandler

His Die-Hard Drive Earns Dave Greenlaw Colorful Recognition

His roots reach to Deer Isle, Maine, as far back as 1720. As a high school student growing up in Maine during the Depression, Dave Greenlaw knew he would have to work for a living.

He also *wanted* to work and went on to earn a B.S. in chemical engineering at the University of Maine. From there he joined Eastman Kodak in 1941 as a chemical engineer in the company's Manufacturing Experiments Division.

"I would take my Ph.D. at Kodak Park," he says in retrospect, "because you couldn't get a Ph.D. in the technology of the photographic process. You had to learn it outside."

(see page 10)

Neil Murphy

A Kodak Executive Who Juggles Work and Living

Real career planning is the responsibility of the individual, Neil Murphy believes, and his rise to management in the Eastman Kodak Company shows that this alumnus got exactly what he bargained for.

Murphy got his start at Kodak in 1954 as a development engineer in the Paper Service Division. Today he supervises most of Kodak's manufacturing and sales efforts outside the U.S. and Canada.

He spent his childhood in northern New Jersey and entered Southeastern Massachusetts University, where he earned a B.S. in chemistry in 1952. He was awarded a graduate assistantship at the University of Maine and he finished his work for an M.S. in physical chemistry at Orono in 1954.

At UMO he met Valerie Bickterman '54, a student of medical technology, an encounter which Murphy calls "the best thing I got out of the University of Maine." They were married in 1955 and are the parents of a daughter and five sons (including Mike '78, Tom '80 and Jerry '83).

Murphy believes the training he received at Orono was thorough. "At the time, they gave no doctorates," he says, "and they worked hard to turn out a finished product." He values his experience as a graduate instructor because it reinforced his knowledge of chemistry and increased his confidence and self-assurance.

"We need people who are willing to operate as individuals — who will make judgments, who will judiciously take risks."

Cornelius Murphy

Murphy credits two members of the UMO faculty with promoting his personal and career development. One was Dr. Bob Dunlap, then a professor of physical chemistry and Murphy's thesis advisor. "He was my leader and my helper through two years," he says. The other was Tex Morris from the department of organic chemistry, a former Kodak employee.

(see page 10)

Greenlaw Searches for Business Integration

(GREENLAW, from page 9)

In his 40 years with the company, Greenlaw began by improving the technology of emulsion coating (applying a thin layer of light-sensitive material to the film) which helped advance film manufacturing.

Five years later, he moved to the Color Technology Division as a quality control and development engineer. It was here that he specialized in the type of color film on the market today.

"There wasn't much color photography before the war," Greenlaw recalls. "There was a good Kodachrome system (for color slides), but that was about it. After the war, we developed the negative/positive system of color photography that we know now as Kodacolor, Ektacolor and Eastmancolor. I was pleased to be a part of that."

At the start, the system for creating color negatives and prints didn't work well.

"The first few times it looked like we'd better abandon the project," he says. "I can remember the despair. A small group of us were instructed by our supervisors that we had better begin to wind down the Kodacolor project, because it was just economically unviable." Greenlaw credits the perseverance of the lab team for the ultimate success of the experiments.

"Maine professors were people you would walk miles to meet"

Dave Greenlaw

Greenlaw became assistant director of the Color Technology Division in 1953, and from 1956 to 1957 he undertook graduate studies as a Sloan Fellow at MIT. There he earned an M.S. degree in industrial management science.

In 1963, he was named assistant comptroller for Kodak Park (a major Kodak manufacturing facility located in Rochester), and in 1968 he was appointed comptroller. From 1970 to 1971, he was

assigned to the office of the general manager of Kodak's U.S. and Canadian Photographic Division. Because he was instrumental in long-range strategy development, in 1972 Greenlaw was named director of advance planning for all of Eastman Kodak Company.

Greenlaw now wants to thrust the company into areas of new business and technology. He searches for a sense of business integration.

"In our society, we've had a tendency in the last hundred years to divide things and subdivide things according to function," he says. "You'll find people who know about finance. You'll find people who know about manufacturing film, but not cameras. You'll find other people who know about manufacturing cameras, but not the selling of chemicals."

As president of a Kodak subsidiary, Eastman Technology, Inc., Greenlaw also operates a "venture branch" of the company which deals in highly specialized fields such as magnetics. Since 1976, he has headed a new Kodak organization, Corporate Commercial Affairs, which is the principal link with other corporations and government regarding special business relationships: licenses, contracts, acquisitions, mergers, and cases of disagreement. On December 8, 1978, Greenlaw was elected a vice president of Eastman Kodak Company.

Work Can Never Be One's Life, Warns Murphy

(MURPHY, from page 9)

Murphy's first job at Kodak was to study black-and-white photographic paper and soon moved into developing new color papers. He went on to spend about five years as a line supervisor, managing 130 employees in production and manufacturing. He says he got "good business training" while on a year-long assignment at the Kodak offices for the vice president of the U.S. and Canadian Photographic Division.

Upon returning to Kodak Park as assistant manager of the paper manufacturing organization in 1973, Murphy became responsible for the film production aspect of Kodak's entry into the instant photography market.

In March, 1977, Murphy became assistant general manager of Kodak Park, and he was elected an assistant vice president of

the company the following month. Murphy was appointed to his present position as general manager of the International Photographic Division on February 1, 1979, and at the same time was elected a group vice president.

He believes that real career planning is the responsibility of the individual. Plan a little bit about what you'd like out of life, he advises. "I believe that there's a balance and that work is a *part* of your life. It should never be your whole life."

Murphy reports directly to Kodak president Colby Chandler. "We've got a good crew of Maine people working here," Murphy says. "The company has done very well with the people we've recruited from Maine and we think we've done well by them too."

Chandler

Looking For Directions

(CHANDLER, from page 8)

Chandler was born in Strong, Maine and moved to Farmington when he was nine. He refers to the move back to his mother's birthplace as "family consolidation." He claims to be a solid "Maine Yankee" because all his family lines trace back to native Mainers. "That leaves some indelible traits in a personality," he said in an interview with the *Maine Alumnus*.

Farmington in the 1930's was a town of small family-run businesses, many of them operated by women (see opposite) according to Chandler. Those years were a time when everyone worked hard.

"Maine was heavily ingrained in those of us who grew up in that era," he says. "It didn't seriously occur to me, even after four years away in the service during World War II, to go to school anywhere else but in Maine. It was either the University of Maine, Colby, Bates, or Bowdoin.

Chandler developed an interest in technology while serving in the Marines, including a tour of duty at the Naval Research Lab in Washington, DC. Intrigued by a program in engineering physics developed by Dr. Clarence Bennett, Chandler enrolled at UMO.

Bennett influenced Chandler academically and personally. "As soon as I saw Dr. Bennett in action and went through that college outline series of physics that he put together," Chandler says, "there was no question in my mind that my major would be physics."

"There's direction for all of us. I think it's a question of how hard you're looking for it."

As graduation approached, Chandler considered graduate school. Both the University of Rochester and the University of Florida offered him scholarships.

Bennett agreed to write letters of recommendation if Chandler would also consider working for Eastman Kodak.

Chandler was invited to visit Rochester, N.Y. where the company is headquartered, and soon thereafter Kodak offered him a job. He joined Kodak in 1950 as a quality control engineer in the Color Control Division.

Chandler's advancement at Kodak was steady. In 1955, he was appointed supervisor of Kodacolor quality control, and in 1960 he was promoted to general supervisor of the Technical Services Staff. From 1962 to 1963, Chandler studied industrial management as a Sloan Fellow at MIT, receiving an M.S. degree.

In July of 1963, Chandler became assistant to the general manager of Kodak's color print and processing organization, later becoming manager. In 1971, he was appointed director of photographic development for the company's U.S. and Canadian Photographic Division, and advanced to general manager of the division in 1974. During that same year, Chandler was elected to Kodak's board of directors and was named executive vice president. (In 1975, Chandler was awarded the GAA's Alumni Career Award for his professional accomplishments.)

Chandler took over as president of Kodak in 1977. Following a reorganization of the company in 1978, he took on additional responsibilities as general manager of the newly created Photographic Division. (This combined the U.S. and Canadian Photographic Division with the International Photographic Division.

Kodak contributes about \$4 million a year to colleges and universities. Says Chandler, "the segment of society that uses the college graduate — whether it's Kodak or any other company — is in an inseparable partnership with the institutions that prepare those people early on in their lives. But we haven't done an adequate job of informing each other how the process is taking place and what's important to each of us in that process.

(see page 14)

Plant Seeds So UMO Can Grow Today

People who plant gardens benefit from the harvest and farmers who store or can vegetables in the summer provide for the family's needs next winter.

The continuous process of planning and reaping of harvest from the gardens in Maine is like the deferred giving program at the University of Maine. Both require effort and attention, but the results are worth it, not only for the laborer but also for those who share in the harvest.

The deferred giving program provides for the present and the future but the quality of the later years can only be assured by careful attention to the present. The donors of some types of deferred gifts to the University receive the benefits of an immediate charitable deduction for income tax purposes as well as an income from the investment. More importantly, s/he will help future generations share in the experience of life on this campus. A deferred gift enables UMO to plan for the future with the certainty that funds will be available to keep a standard of excellence.

The UMO deferred giving program offers various plans for making a gift to the college. Insurance policies and trust funds set up today will make the future more bounteous and replenish the institution that has nurtured so many.

Alumni are to be applauded for their support of the college. Let us continue this support. Seeds sown today will ensure a full larder tomorrow.

Maine's 'Magic' Hockey Team Clinches Berth in ECAC Div. 1 Playoffs

The University of Maine's nationally-ranked Black Bear hockey team, which stood at 17-5 overall, 8-4 in ECAC Division I, ranks fifth best in the country, according to one coaches poll, conducted by Hockey Magazine.

By mid-January, UMO's skaters were the third winningest among 17 teams in the ECAC and well on their way to Division I playoffs in early March.

The Alumnus reprints, in this issue, a play-by-play piece by WABI hockey commentator, Gary Thorne '70, who remembers this year's seniors when they weren't.

So it has come to this. On the programs they are designated as Sr. They are the lettermen, but they are more. In 1978-79, they were Fr., they were the beginning of a dream come true and have been that dream personified beyond even the dreamers' expectations.

Conn, Hughes, Demianiuk, Crespi and Leach — the point leaders in year one in Division Two (15-12) and only one game out of the playoffs. They sat in the locker room at Alford Arena, their home ice, but they had never played a game on it. Nobody had. They were first — they were Fr. — and they were loved. Joe Crespi drives home the game winner against Acadia in "Game One," ecstatic as he falls to the ice; Jamie Logan, stick high over his head, following Crespi through the crease; Gary Conn jubilant to the left of the net, jumping for joy. The signs on the wall said "Welcome to Maine Hockey." In goal were Jeff Nord (3.83) and Jim Tortorella (3.96), with Don Mason, Marc Son, Paul Wheeler and Larry Page jamming in front of them — all those Fr. beating off all those pucks from another team's Sr. Jack Semler had his nucleus.

In 1978-79, the Soph. were first (25-8-1) in Division Two. Conn, Crespi and Hughes were the top point getters, Dan Sweeney was their captain, Nord (2.87) and Tortorella (3.78) shared the schedule in heavy pads. Another Tortorella, John, became the "new Soph.," thirty-two points, and eighty-five minutes in the box. He spent just as many minutes in the other goal-tender's crease, battered and bruised, and hoping for more. They were that good.

But how soon they question. The challenge had just begun. Division Two was gone, Maine moved to Division One — "the big boys." Could they? Would they? Yes! Yes!

1979-80. There were new names to help the Jr., but the Jr. led. Conn continued scoring (21-24-45), with Crespi close behind (17-18-35). Bill Demianiuk was elected captain. John Tortorella watched a little less from the box (71 minutes) and became the second-leading point man of the season (14-22-36). Jeff Nord, injured after only five games in the net, was red-shirted. Jim Tortorella logged sixteen hundred minutes and thirty-nine seconds of grueling goal tending in twenty-eight games. The mask had double the dents.

They finished (15-16-1) one game, one lousy game, out of the playoffs. Maine? Ask B.C. (6-3, Maine at Boston), B.U. (Maine down 6-1 in the second, wins 8-7), U.N.H. (oh, that sweet overtime win on a snowy night in Durham), or Providence (6-5 in Rhode Island when they had to win). Jack Semler, the NEWS sportsperson of the year, and properly so.

Now they are Sr. Gary Conn, leading scorer in goals, assists and total points (98-106-204) and career power play leader (34). Assist leader for a single season Brian Hughes (31) again at the back of the bus, quiet and reading, and Maine's third-leading scorer. The captain, in fact and name, Bill Demianiuk — showing the most games played (114) with Gary Conn. Former SHG leader Jamie Logan (4), the man on the breakaway.

In goal, there have been the two — Nord and Tortorella. They will go again. Joe Crespi, Maine's second-leading scorer, will spend another winter with buckets of pucks, staying after practice, firing at the net. Jon Leach, the versatile forward, will be there to

(see page 14)

Games

Hurlers warm up in Miami

The baseball Bears, a team the Bosox Club in October named the "most outstanding collegiate team in New England," will make their annual spring trip this month (March 14-29) to Miami, Florida.

According to seventh-year head coach, John Winkin, the trip will represent the Bears' first outside competition as they attempt to attain a goal they narrowly missed a year ago when they posted a 23-13-1 mark and an ECAC New England championship.

The Bears hosted the NCAA Northeast Regionals but finished third in the four-team event.

"We've got some decent depth and that's what we're counting on," Winkin said as the team prepared for a warmup week of batting practice.

In the 1981 season, the diamond squad will again have right-hander Tom Mahan, a junior knuckleballer, and sophomore hurler Joe Johnson.

Led by senior co-captains Mike Coutts of Auburn and Kevin Buckley of Braintree, MA, the Bears will compete in two week-long tournaments, a 23-game schedule. In the first series, the Hurricane Tournament at the University of Miami, the Bears will take the field with the host team, Southern Illinois, and the University of Miami in Ohio (last year's top-rated team in the country.)

In the second week of Round Robin games, the UMO Bears will try to outdistance the University of Miami, Bowling Green and the University of Miami in Ohio.

"Although we lost senior southpaw Skip Clark," Winkin said, "We have some decent freshmen to offset the loss."

The first of 50 New England games is set for April 3 in Fairfield, CT.

Jack Bicknell

Jack Walas, PICS

BC Hires Coach Bicknell

Next fall, Jack Bicknell is expected to tackle a brutal schedule when he takes over the job as football coach for Boston College's top-rated Eagles.

BC played the seventh toughest schedule in the country in 1980, going 7-4 with two of the losses to Pitt and Florida State. In 1981, they open with Texas A & M, West Virginia, North Carolina and Penn State.

"It's a tough schedule, but I'm happy with it," says Bicknell, who spent the last five seasons at Maine. "If we get lucky, we'll come out alive after the first few games. The key is to coach with intensity from the start," he told a UPI reporter.

Bicknell said he saw the Eagles play Massachusetts last season and felt that they had some excellent defensive players but that there was a shortage of speed.

He described himself as an emotional coach with a sharp eye for talent.

Known as an innovative and offensive-minded coach, Bicknell gained brief national attention two years ago for developing a trick play off a field goal attempt. The hold took the snap and pitched it to the kicker who punched the ball, volleyball style, into the end zone. One of the Maine tight ends fell on the ball for a touchdown.

Sources say Bicknell was chosen because he had coached at BC as an assistant under Joe Yukica for eight years until leaving in 1976 for the Maine job.

At Maine, Bicknell had a 18-35-1 mark, but many believe his record was not indicative of his coaching.

The 42-year-old Bicknell cited a need for increased football scholarships if UMO wants to be competitive.

"You look at his record, but then you see that he has one-tenth of the scholarships of the teams he played," said Boston College Athletic Director Bill Flynn.

The winning team

(HOCKEY, from page 12)

give meaning to "depth", John Tortorella, the "new Sr.", will test the mettle and temper of opposing goal tenders.

It is difficult to imagine Maine Hockey without these Srs. Perhaps that is when a sports program becomes of age, when those that gave birth leave. They have been superior, and their accomplishments are forever — and ours to retell.

But wait. The best of this written sojourn is the end of the beginning is now being written. They are not gone. Srs. dream too, and why shouldn't they. Our dream was their's in 1977-78, but they were Fr. It mattered not, they rose to fill the winter nights with strong efforts and success. We doubted with them in 1979-80 about the move to Division One, even if it went unspoken. They shared their victory over doubts in wondrous moments of sheer joy, beating those who wish they were admonished to hold in awe.

Now, we share the Sr. dreams, but will not speak them. One does not mention the no-hitter in progress. But just listen on a cold winter's night outside the Alford Arena as that space between fallen snow and clear sky fills with sound as the red light at the other end ignites. That is the sound of a Sr. dream four years in the making.

(CHANDLER, from page 11)

Students should come out of grammar school, high school and college better rounded, he says. "I would take what is the current engineering curriculum, for example, and add right on to the engineering sciences a much larger core of humanities. I would have been a much more effective person in the first 15 years after I left the University of Maine had I been forced to take somewhere between three and five times as many credit hours of humanities.

"And if I were to step over into the role of the humanities expert for a moment, I'd be willing to guess that this is a two-way street, that the person who is writing for *Fortune* or the *Rochester Times Union* or the *Bangor Daily News* should have basic chemistry and physics and math, because those subjects are going to impinge on what they write. You can't escape science and technology today."

How did his own education prepare him and contribute to his success? "I have only one answer to that," he says, "and I feel strongly about it, and that is the caliber and quality of the faculty. Some of the stuff we had to work with in physics was antique, but it really didn't matter. The caliber and quality of the faculty is measured by their worth as role models and human beings, as well as by technical competence. And the extent that the University of Maine (or any other educational institution) is successful is directly related to that."

And what advice would he give those who wish to move ahead in life? "Work," he says. "Work hard. Working hard is fun.

Kodak has responded to the challenges of the marketplace. During the 1970's the company introduced a highly successful line of instant cameras. Very recently, the company entered the field of clinical chemistry when it announced the Ektachem 400, a sophisticated dry chemistry analyzer for testing blood serum.

"I can sum up the state of our company at the end of its first century very simply," Chandler told Kodak's centennial-year annual meeting. "We're more efficient, more effective, more informed, more able than ever. We begin the 1980's with confidence to reach ambitious goals."

Women hoopsters face strong challenge

"It's a building year" were the consoling words of women's basketball coach, Eileen Fox, to her young team, when the Black Bears lost their fifth game of the season. At the time, that made UMO 2-5. They beat Concordia (71-70) and UM Farmington (67-35) in earlier season play.

The defending MAIAW champions graduated their three top scorers last spring and fielded a 14-member team for this basketball season that included seven first-year students.

Fox, now in her sixth year at the university, says this is not the first time she has started from scratch, so to speak. "We started over, that's for sure," she said, "but we have a group of women who really respect each other and want to work as a team. When it all comes together, we'll be tough to beat."

Maine sent only two seniors on the floor this year, co-captains Barbara Dunham, a 5-foot-10 forward from Helena, MO, and Mari Warner, a 5-9 forward from Saco, ME. Fox believes the two returning veterans anchored the Bears' attack.

Newcomers to the squad were Tammy Gardiner of Houlton, Laura Carter of Falmouth, Lisa Cormier of Van Buren, Linda Emerson of Saco, Leah Salvatore of Portland, Julia Treadwell of Veazie, and Barbara Miltner of Brooksville. At 6-2, Miltner stands taller than any on the UMO team.

Beth Hamilton, a 5-11 sophomore forward who starred at Westbrook High School, was Fox's floor leader. Another sophomore, 5-7 Cathy Nason from Carmel, put her "quick aggressiveness" to work at the guard position, according to Fox.

Junior Dawn Ewing of Victor, NY, an experienced ballplayer, transferred to the Maine lineup. Jody King, a 5-10 junior forward from South Dartmouth, MA, played her second year for Fox, as did 5-9 sophomore Nancy Storey of Cumberland.

The coach's biggest challenge, she says, was to turn several individual high school stars into a strong unit that could compete successfully with leading Division I teams as well as experienced instate schools.

"There are always a lot of ups and downs in this sport," Fox said, "as well as some surprises. It's a challenging year."

As this issue of the *Alumnus* went to press in January, coach Fox hoped to finish the season 12-8 or better.

Maine's Wendy Farrington (43) nets enough points to earn her place as top woman scorer.

Bodwell Sees New Concert Hall First For Emerging Center for Performing Arts

What would happen to music, dance and theatre at UMO if we didn't have private giving?

What would happen to the Center for the Performing Arts at Orono if we didn't have Russell S. Bodwell '44?

No doubt, students at the School for Performing Arts would be less fortunate if it were not for the work of Russ Bodwell.

Like a captain of industry directing his resources, this alumnus, according to one of his colleagues, "expresses a new generation of leadership."

It was Bodwell who engineered and paid for a trip to London last year to meet with renown architects and to talk with production managers at some of the world's best theatres.

It was Bodwell who suggested that separate space be created for the two performing art forms since each has special needs. Theatre people like a small house; music and dance enthusiasts prefer larger accommodations with different

acoustical qualities, which is compatible with speaker and convention needs. Visual arts have specialized demands.

And it is the same man, who envisions a multi-million dollar concert hall for Maine will materialize this fall, a first step in the emergence of the Center for the Performing Arts at Orono.

"The idea is to have something we can break ground on in the fall of 1981," said Bodwell, the managing partner for the consulting firm of Henderson and Bodwell, headquartered in Plainville, NY, which provides services for major developers.

"Economic survival for Maine is dependent upon atmosphere," he said in an interview with the *Maine Alumnus*. "A cultural climate is part of that atmosphere."

And so, by unanimous vote in December, Bodwell and nine other committeepeople endorsed a \$14.5

million, multi-phased project which unfolds like this:

First, a new 50,000-square foot concert hall will be put up directly behind Hauck Auditorium to create space for music, dance, conferences and lectures. The \$4.5 million building will seat an audience numbering 1,600 to 1,800 and will have integrated, off-the-lobby space to house the Hudson Museum.

Second, the committee recommends moving the University Bookstore from its present space in the lower level of Hauck to a new store on the site of the old dairy barns. Revenues from the bookstore and from two proposed 300-seat movie theatres which will adjoin it are expected to generate the \$2 million funding needed for construction.

Portions of the vacated space at the lower level of Hauck will then be turned over to theatre staff for use in rehearsals and for scenery storage.

Citing current traffic and maintenance problems, Bodwell said Hauck will then be free of the general hubbub associated with commercial business.

Modernized and renamed, Hauck Theatre will be expanded to make room for more stage rehearsal space. Projected cost for these improvements: \$1.75 million.

According to an artist's rendering, the concert hall and Hauck Theatre will then be joined by a span which will make room for dance and music education. This "bridge" between the old and the new theatre, valued at about one-half million dollars, is scheduled for construction in 1983.

Finally, a plan for the visual arts completes the metamorphosis.

In the second phase of the building plan, a 50,000-square foot modern facility for art classroom and studio use will be built near Carnegie Hall in order to separate daily instructional space from the redefined use of Carnegie as an art gallery and research facility. The necessary \$4.25 million needed for this phase will be sought through legislative appropriation, according to financial analysts. When this studio is finished in 1984, Carnegie Gallery will be free to berth both

Alumni Headliners

Dr. Jessie A. Miller '29—The only woman in history to be named an honorary graduate of the United States Army War College. Dr. Miller, cited for her teaching service at Ursinus College, joins her husband, Dr. Eugene H. Miller, and 13 others so recognized. The first such diploma was awarded to General John J. Pershing in 1924.

Dr. H. Roy Kaplan '68—As part of the M.L. Seidman Memorial Lecture Series, Southwestern at Memphis, TN, March 26, will dissect certain sports myths. Sociologist, author, and authority on sports and lottery gambling, Kaplan believes excessive competition degrades professional games.

Raymond R. Couture '51—Named rear admiral in the Naval Reserves, one of 12 so honored nationwide. He is a self-employed attorney in Reading, MA.

Barbara H. Bodwell '45—Received the highest honor the Salvation Army gives to volunteers — the acclaimed "Others" Award. She is a former president of the Nassau County (New York) Women's Division.

Torrey A. Sylvester '59—After serving at sea and in the U.S. Naval Reserves since his graduation, promoted to captain, a rank comparable to full colonel in the Army. He currently commands a volunteer training unit in Bangor, ME.

C. Lincoln Jewett '44—Named executive vice president of Howard P. Hoffman Associates, a New York-based real estate consulting firm.

(see page 17)

SCHOLAR DOLLARS — Twelve women students will be \$100 better off next fall as Janice Clark, president of the Southern Penobscot Alumni Association, turns over \$1,200 in scholarships to General Alumni Association treasurer Richard R. Sprague of Bangor. The funds were generated with an annual auction and food sales.

Books

Possessing the basic strength and loftiness of the trees she describes in *More Cones From the Pines of Maine* (Dorrance, 1965, 57 pp, \$3) the poetry of Daphne Winslow Merrill '27 does not neglect the more delicate aspects of Maine's forest and waters.

In this, her second volume of poetry, dedicated "to all who love Maine," Merrill conveys genuine reverence for the state and personal hopefulness.

A former English teacher at the university, Merrill now lives in Auburn. In 1973, she published *The Lakes of Maine* (hardcover, \$12.50), a fully-illustrated anthology of legends and history surrounding the state's inland waters.

Alumna Lyrics

Combining water and words is a gift to another UMO graduate, Minnie E. Bowden '38 of Belfast, whose excerpt from *People Poems* (softbound, \$3.50) illustrates:

Water
in ever
moving cycle
of sky, earth, ocean
stays a moment
to be Bread
and Blood.

Published in 1978 by Hillside Publishers in Orland, it includes in its 54 pages an entry entitled "Feelings After Parents' Divorce" which demonstrates a poignant style: "Within every cell of my being are genes of him and genes of her . . . my soul feels blighted, my cells adrift, and all my energy is consumed in the effort of becoming whole."

Both collections of poems may be ordered from a catalogue distributed free by the Maine Writers and Publishers Alliance, P.O. Box 143, South Harpswell, ME 04079 (tel. 207-883-6921).

Arts Center Options Weighed

Russ Bodwell

(ARTS, from page 16)

permanent art exhibits and research materials. About \$1.5 million in renovations to Carnegie itself is projected for expenditure in 1985.

Russ Bodwell's promise to see the Center for the Performing Arts to completion measurably rouses optimism around UMO about raising the money. It has been said of Bodwell that "he supports what he believes in." What does Bodwell say?

"Contributions from corporations, foundations, friends, and select alumni will provide the margin for excellence. It's doable if we can get everyone to see the need to enhance a great university, and explore the many other sources of capital funding."

Serving with Bodwell on the building committee are: George Baughman, James Bost, Wilma Bradford, Richard Emerick, Richard Jacobs, Alan Lewis, Mike Lewis, Dianne Linscott, Karl Webb, and consultant Eaton Tarbell, who represents the architectural firm of Eaton W. Tarbell and Associates of Bangor.

"To research" means to look again. In this story, the *Alumnus* looks at four separate research teams at work around UMO. One group is charged with studying the acidification of Maine's lakes; another was awarded UMO's largest single grant for basic science; a third traveled to Haiti to find a solution to a world hunger crisis; and a fourth studies changes in the surfaces of materials.

RESEARCH

ROUNDUP

Acid Rain Team of Investigators Gains Prominence

A team of experts at the University of Maine have, in five years, pioneered significant exploration of "acid rain" and its effects on our surroundings, according to Dr. Stephen A. Norton, a professor in the geological sciences.

Since 1975, when Norton first moved into acid rain research, more than 13 investigators have joined the team studying pollutants in the environment. They include Drs. Ronald B. Davis, Terry Haines, Charles T. Hess and others from the disciplines of physics, botany, soils, forestry, geology, oceanography, and chemistry.

The team has gained prominence among researchers nationwide who see this type of contamination as a menace to a healthy environment.

Another leading ecologist, Dr. Christopher Cronan, assistant professor of botany and ecology, has recently joined the faculty already investigating the problem.

Scientists blame the burning of fossil fuels for about two-thirds of the acid rain in the Northeast. Nitric acid, largely from automobile exhausts, causes about one-third. On the west coast, where more people drive cars, the proportion of nitric acid is much higher.

Acid rain, or acidic precipitation, is caused when sulfur and nitrogen oxides mix with moisture in the atmosphere and are chemically changed so that they fall to earth in a highly acidic form, acidifying lakes and forest soils, killing fish in some situations.

The impact on forests could be significant, Norton said, if acidic precipitation continues unchecked. He recommends national legislation to curb excessive pollution from fossil fuel-burning plants and smelters in the United States.

With the national policy of converting industry to domestic coal instead of imported oil, the problem of acid rain is not going to improve, experts say.

Although the facts are not all in, Norton believes that tree growth in the forests at first may be stimulated by acid rain because of essential nutrients present in the rain and snow and the accelerated release of nutrients from the soil at the same time.

However, certain sensitive soils which receive acid precipitation, sooner or later become impoverished in nutrient elements such as potassium, calcium and magnesium.

"It's like having a million dollars in your bank account. If you start spending \$100,000 a year, your lifestyle is pretty good for a while. But eventually you get into deficit spending," he says.

Funded by a \$280,000 grant from the National Science Foundation, Norton and Davis are documenting the acidification of lakes in Maine and Scandinavia.

"There are at least several dozen lakes in Maine which cannot support reproducing fish populations because of their acidity developed from acid rain, Norton explained.

The prognosis is grim, he said, because the nation is burning more coal (which has the potential to pollute more), because air standards have been relaxed, and because the country's new administration is more sympathetic to industry than to the environment.

Hard-nosed Proposal Wins Maine \$4 M Grant

Maine won a five-year grant valued at more than \$4 million because a team of researchers had what some call a "hard-nosed" proposal for discoveries in earth and marine sciences.

Sources say the money, which was awarded the university by the National Science Foundation, represents the largest single grant for basic science which UMO has ever received.

The money was tagged for EPSCOR (Experimental Program to Stimulate Competitive Research) and will make possible a significantly enhanced research

capability in Earth Sciences and Marine Sciences.

The Earth Sciences program consists of coordinated studies of the Appalachian Mountain Chain in Maine, the movement of the earth's crust along the coast, and the shift of sediments out of major rivers into the Gulf of Maine. The program will provide five new scientists in UMO's eight-member geology department.

The Marine Sciences Program consists of a study of the fertility of the Gulf of Maine. Scientists at UMO's Center for Marine Studies and the Bigelow

Laboratory for Ocean Sciences in Boothbay Harbor hope to understand the factors which make the Gulf of Maine one of the world's most productive waters.

Dr. Alton Clark '61, Professor of Physics at UMO and EPSCOR director, says that the program will be of long-term practical value to the people of Maine. The Earth Sciences Program will be very relevant to the mining and mineral activity rapidly developing within the State. The Marine Sciences Program will lead to better fisheries management.

RESEARCH

ROUNDUP

UMO Faculty "Well Suited" for Hunger Study

Food is a basic human need. Food policy issues already present complex problems for world leaders. How can underdeveloped countries balance trade-offs in the creation of effective world strategies?

This was one of the questions left unanswered when eight University of Maine experts returned from a winter trip to Haiti in an effort to study worldwide food shortages.

Researchers like Eugene Decker of Houston, Texas, an authority on French-speaking third world countries, set out to generate new research funds to help solve what he calls a critical food problem.

Decker and seven others flew to Haiti under a grant from the U.S. Agency for International Development, in order to build UMO's capacity to develop programs for starving countries, according to Lewis Clark, director of International Agricultural Programs at UMO.

The team included professors in forestry, nutrition, zoology, agriculture, art and education as well as Karl Webb,

dean of the College of Arts and Sciences, and Clark.

So much of the world is rapidly becoming desert, Decker explained. One United Nations study shows that the amount of land in danger of becoming unfit for agriculture is equal to the combined areas of the Soviet Union, the United States and Australia.

Haiti, for example, may have only four years of wood left, as its forest lands are continually cut down for use as fuel.

"We picked Haiti because it's one of the poorest countries in the world," Decker said. "Eighty percent of the people live on less than \$100 a year; the major diseases are still things like malaria and tuberculosis; and soil erosion is bad. It has all the serious problems an underdeveloped country can have. It also provides a chance to do significant work without spending a lot of money."

"The value of human life is directly related to the amount of food available."

Decker believes an interdisciplinary team, like the group of UMO investigators who went to Haiti, represents the only workable approach to helping people learn to take care of themselves.

He also expects Americans to have to make do with much less food.

"Americans are getting accustomed to shortages, but must learn to be more innovative," he said.

"This was not just a humanitarian effort," he added. "It's a fundable research project that will have a direct effect on helping solve the food problem."

The UMO faculty is particularly well suited for pioneering research like this, Decker said, because Maine people are resourceful.

"Third world countries have a lot of experience with this. The food problem there is both ethical and technical. But people in ethics can't solve it alone and people in technology can't solve it alone. This university is one where the team approach works."

Research Roundup

LASST LAB Fingerprints Surfaces; Takes Chemical Pulse

It's UMO's first LASST. That's not a play on words. LASST stands for Laboratory for Surface Science and Technology and workers there use some of the most modern surface analysis equipment of any New England university.

Instruments worth more than \$400,000 take fingerprint-like photographs of surfaces and report within a fraction of an atomic layer exactly what the material looks like, according to laboratory director, Dr. Alton H. Clark '61.

Clark, who is a physicist, and three other faculty members, Professors William Unertl and Peter Kleban, both physicists, and John Vetelino, an electrical engineer, may soon be joined at LASST by new chemical engineers and a materials scientist. An engineering associate, charged with equipment maintenance, was hired in November.

Clark said LASST allows UMO to contribute to the solution of critical technical problems facing the nation in areas such as high density information storage and processing, corrosion, adhesion, and energy conversion. Laboratory research also assists the pulp and paper industry with the development of better coatings for high grade paper, he said.

Instruments in the lab include an auger spectrometer, electron energy loss spectrometer, secondary ion mass spectrometer, low energy electron diffraction equipment, and facilities for micro fabrication and molecular beam epitaxy.

A LASST advisory committee includes Dr. David A. Shirley '55, director of the Lawrence Berkeley Laboratory in California.

Studying for finals

PICS

(LETTERS, from page 5)

I was depressed. . .
didn't want to go
I didn't think.

To my 50th class reunion.
Depressive
possibly boring.

But I went
punching memory buttons
old data flooding back.

My old classrooms
recycled like me
and old classmates.

And new classrooms
memorials of hope for
Little . . . Murray . . . Wallace

We re-celebrated
a horse in the Arts building
our gold basketball and
Halloween.

Some re-programming
and re-cognition
with long-ago new-again friends.

It was in fact refreshing
a surprising celebration
of re-creation and change.

I'm glad I risked myself
back to the U of Maine
where beginnings do not end.

Arthur Gillespie '30

(DR. GRAVES, from page 7)

Here are the principal provisions of EAP:

✓ It will assist employees in troubling situations, such as alcoholism, drug dependency, emotional disorders or other crises.

✓ The assistance will involve referral to diagnostic and treatment facilities.

✓ Any employee seeking assistance under the program will be afforded the same considerations extended to employees with other illnesses.

✓ Referrals, treatment and follow-up will be kept confidential.

✓ No employee will have his or her job security or advancement opportunities jeopardized by request for help under the program.

✓ It will be the choice of the employee to comply with referral and cooperate with prescribed programs.

Behind the formal language of the policy statement lies a human concern for troubled and afflicted employees at the University of Maine.

EAP won't solve your problem, says Dr. Graves, but it will give you an opportunity, if you want help, to ask for it in a way that will provide privacy and protect your dignity as an individual.

"I don't even follow up cases," he says, "because I don't want to let others know who the EAP's clients are. I do say to someone when they leave my office, 'Please let me know what happens.'"

Something Funny

"I was a student in Prof. Huddilston's ancient history class. This was a lecture held in the old library. I had a proclivity to cut this class too often. I really didn't think the professor took particular notice of my presence. I remember I had told him I was ill, accounting for my absence.

"One day, after cutting class on several occasions, I was in attendance at the very rear of the hall hoping not to be seen. However, Prof. Huddilston, in marking his attendance book, looked up, saw me and noted—

"I see we have a visitor in class today. Mr. Black was sick last fall and has been recuperating ever since!"

Deaths

The Maine Alumnus magazine would appreciate being informed of the death of UMO alumni, especially those outside the State of Maine. Please send the information to the attention of Mrs. Faith Webster, North Hall, Orono, ME 04469.

1905 CHARLES LEON FOUBERT, 99, of Indian Head, MD, died Sept. 2, 1980. He earned a B.S. degree in Chemistry. He was with the Department of Agriculture from 1908-1918 in the Office of Tobacco and Plant Nutrition Investigations. During WW I he served in France as a First Lieutenant. In 1926, he joined the U.S. Naval Powder Factory in Indian Head, MD where he was an associate chemist until his retirement in 1951. He was a charter member of the Paris, France Post 605 of the Veterans of Foreign Wars and was a past commander of Post 1800 of the VFW in Indian Head. The Talented Scholars Fund was established in 1978 in his name.

1909 DEANE STANLEY THOMAS, 93, of Portland, ME, died Nov. 7, 1980. He earned a B.A. degree in economics and sociology and was a member of Sigma Nu. He sold insurance for Connecticut General Life Insurance for 62 years. In 1964 he was awarded the J. Putnam Stevens Award. He published *Leaflets: A Book of Verse*. He is survived by four children, seven grandchildren and several great-grandchildren.

1912 WALTER BRADBURY EMERSON, 89, of Pennsville, NJ, died May 17, 1980. He earned a B.S. degree in mechanical engineering and was a member of Sigma Alpha Epsilon. He was a physicist for the National Bureau of Standards until he retired in 1956. During WW II he developed a new diamond die drilling method. He was a member of the National Optics Society and a recognized author. He is survived by a son, Bradbury.

1912 GEORGE NEWTON WORDON, 89, of Boise, ID, died Feb. 2, 1980. He earned a B.S. degree in agronomy and was a member of Delta Tau Delta. He lectured at Boise State University.

1913 EARL W. TARBOX, 86, of Saco, ME, died Oct. 19, 1980. He earned a two-year certificate in agriculture. He was a self-employed farmer. He is survived by a brother, three children, 13 grandchildren and 17 great-grandchildren.

1915 ARTHUR MALLOCH, 86, of Lubec, ME, died Oct. 18, 1980. He earned a degree in pharmaceutical

chemistry. After several years as a pharmacist, he joined the R.J. Peacock Canning Co. as captain of a sardine carrier. He retired last year. He is survived by his wife, Jacqueline; three children, three grandchildren and two great-grandchildren.

1917 FOSTER DAVIS JAMESON, 82, of Friendship, ME, died Sept. 13, 1980. He studied in a two-year agriculture program and owned a poultry hatchery. A naval veteran of WW I, he was a life member of the American Legion. He was past master of the Masons and was an honorary director of Maine National Bank. He is survived by his wife, Florence; two children (William S. '43, of Waldoboro and Elizabeth Jameson Duckett '46, of Damariscotta); eight grandchildren and seven great-grandchildren.

1918 MAURICE CLINTON GROSS, 83, of Westbrook, ME, died Oct. 26, 1979. He was a member of Sigma Alpha Epsilon. He worked as principal of Hampden Academy and assistant professor at Columbia University. He published the *Maine Grange Herald* and the *Maine Teacher's Digest*. He is survived by his wife, Della; one son, and a daughter (Lorraine Gross Townsend '38, of Gorham).

1922 PARRY EUSTIS BOYD, 81, of Encinitas, CA, died May 13, 1980. He earned a B.A. degree in economics and sociology and was a member of Phi Eta Kappa. He was an industrial and mine supplies salesman and a trust fund manager. He retired in 1956. As an avocation, he was a musician. He is survived by his wife.

1923 EVERETT CHARLES CUNNINGHAM, 79, of Patten, ME, died Sept. 26, 1980. He earned a B.S. degree in dairy husbandry. He was a teacher and coach for Washburn schools for 46 years; was given a car by the town to commemorate his 25th year. Under his guidance, the Future Farmers of America received two outstanding chapter awards. He was president of the Maine Association of Vocational Agriculture Teachers. He is survived by a daughter, Evelyn Cunningham Woodman; a son, Charles E. '48, of Moorestown, N.J.; two brothers and six grandchildren.

1923 ROLAND LEWIS WILKINS, 80, of Albion, ME, died Aug. 26, 1980. He earned a B.S. degree in animal husbandry and received an M.Ed. in 1952. He also earned a master's degree in agricultural education from the University of Massachusetts. He taught agriculture, math and science in northern New England schools. He was a U.S. Army veteran of WW II and a recipient of the 50-year medal from the Order of Masons. He was a member of the Wilton Congregational Church. He is survived by his wife, Evelyn; two sisters, two brothers, and two grandchildren (Brian Wolcott '74, of Waterville and Bonnie Wolcott Weston '77, of Rockport).

1923 EUNICE HAZEL WINSLOW, 78, of Rockland, ME, died Sept. 29, 1980. She earned a B.A. degree in Latin and an M.A. in 1939 from the University of Pennsylvania. She taught Latin in Abington, PA, was an investment broker with J. Arthur Warner & Co. and before retirement, taught in Rockport, ME.

1925 WILLIAM MAYO ALLEN, 77, of Falmouth, ME, died May 13, 1980. He earned a B.A. degree in economics and sociology and was a member of Theta Chi. He was a captain in the U.S. Army, serving in

PICS

India during WW II. After he retired in 1962, he managed a poultry farm in Falmouth until 1975. He was a member of the Eagles and the Amvets of Portland. He is survived by his wife, Bernice; two sons, five grandchildren and three great-grandchildren.

1925 HUDSON CARLTON BERCE, 78, of Houlton, ME, died Sept. 27, 1980. He served on the Houlton Zoning Board of Appeals, an Aroostook task force for elderly citizens, and was former Houlton town councilor and tax assessor. He is survived by his wife, Berenice '23; three children (Lewis C. '50, and Barbara Berce Holden '57, both of Houlton, and Hudson R. '60, of Presque Isle); a brother (Woodbury L. '13, of Washburn) and two granddaughters.

1926 HARLAN JULIEN EMERY, 76, of Falls Church, VA, died Aug. 14, 1980. He earned a B.S. degree in dairy husbandry and an M.S. from Oregon State College in 1930. He was a member of Sigma Nu. He worked 40 years in the Department of Agriculture, eventually directing the Livestock and Dairy Division of the Agricultural Stabilization and Conservation Service. He wrote *Dairy Price Support and Related Programs, 1949-1968*, a reference text. He is survived by his wife, Gwenydd; three sons, two brothers (Charles '17, of Farmington Hills, MI, and Newell '20, of Bar Harbor), and four grandchildren.

1926 DIONG DIEK UONG, 80, of Leominster, MA, died Oct. 7, 1980. He earned a B.S. degree in chemical engineering, pulp & paper technology, and was a member of Tau Beta Pi. He worked 39 years for the Fitchburg Paper Company including duties as vice president for engineering and research. Upon retiring, in 1965, he was vice president for research and development at Monadnock Paper Mills in N.H. and director for the Martin Cantine Company in NY. He was a former director of UMO's Pulp and Paper Foundation where a scholarship was established in his name. He registered several patents. He was director of the Fitchburg Rotary, the Leominster United Fund Drive, and the Leominster Chapter, American Red Cross. He is survived by five daughters and nine grandchildren.

1926 STANLEY WILLARD ROSS, 77, of Cranston, R.I., died Aug. 1, 1980. He earned a B.S. degree in education and was a member of Kappa Sigma. He taught 35 years in Cranston schools. He is survived by his wife, Alice; a sister, two sons, and ten grandchildren.

1928 DANA BLISS BROCKWAY, 74, of Exeter, ME, died Sept. 22, 1980. He was a member of Alpha Gamma Rho. He was a self-employed farmer. He is survived by his wife, Vivian; five children, 18 grandchildren and four great-grandchildren.

1928 CHARLES EDMUND DOBLE, 76, of Milo, ME, died Sept. 8, 1980. After 35 years, he retired from the U.S. Postal Service. He was a member of Piscataquis Lodge #44, the Milo Masonic Club and Aldworth Chapter, Eastern Star. He is survived by his wife, Grace; two sisters, one son, three daughters (including Helen Doble Carey '57, of Milo), 12 grandchildren and six great-grandchildren.

1928 GEORGE FRANKLIN DUDLEY, 81, of Cape Elizabeth, ME, died Oct. 8, 1980. He earned a B.A. degree in economics and sociology, and was a member of Beta Theta Pi. He was co-owner of Dudley-Weed Drug Co., and retired in 1967. He was a veteran of the U.S. Army. He was a former deacon of Williston-West Congregational Church. He is survived by his wife, Thelma Perkins '28; two daughters and five grandchildren.

1929 ELIZABETH SPENCER CLEVELAND, 72, of Waterville, ME, died Aug. 25, 1980. She earned a B.A. degree in education and was a member of Delta Delta Delta. She taught five years in Bingham and was president of the Waterville Garden Club. She is survived by her husband, Elvidge.

1929 ARTHUR VERNARD LAWRENCE, 73, of Cherryfield, ME, died Oct. 8, 1980. He taught in local schools and was principal of the Penobscot elementary school. A veteran of WW II, he was past commander of the Cherryfield American Legion and a 50-year member of the Masons. He is survived by his mother, a daughter, Mary; and three grandchildren.

1930 JOHN WILLIAM (Jack) MORAN, 74, of Miami, FL, died Oct. 14, 1980. He earned a B.A. in economics and sociology, and was a member of Phi Gamma Delta. He worked 35 years for the *Bangor Daily News*, serving as managing editor from 1955 to 1970. He was press secretary for Maine's Governor Horace Hildreth. He was awarded the Sevellon Brown Award for his coverage of Bangor's urban renewal drive. A past president of the Graduate "M" Club, he promoted Maine athletics. He was a Penobscot County Commissioner. He is survived by three daughters and a stepson, Clarence.

1931 PHILIP JUDD BROCKWAY, 72, of Orono, died Dec. 20, 1980. He earned a B.A. degree in English in 1931 and an M.A. degree in 1940. He was a member of Sigma Alpha Epsilon, and two honor societies, Phi Beta Kappa and Phi Kappa Phi. In 1935, after three years in the paper industry, he directed UMO's Placement Bureau. He was president of both the Eastern Council of Placement Officers and the National Placement Council. He was assistant alumni secretary and director of student aid. He retired in 1965 and received the Black Bear Award. He exhibited watercolored paintings, some of which were named for awards. He was cub scoutmaster for ten years and a member of the Orono United Methodist Church. He is survived by his wife, Muriel Freeman '32; a brother, three children (Richard J. '60, of Amherst, NH; Pamela Brockway Adams '60, of Yarmouth; Betty Brockway Nevers '56, of Worcester, MA), and seven grandchildren.

Friends may contribute to the Philip J. Brockway Scholarship Fund, General Alumni Association, UMO.

1931 LESLIE HENRY ST. LAWRENCE, 73, of Lexington, MA, died Aug. 15, 1980. He earned a B.S. degree in mechanical engineering and was a member of Sigma Phi Sigma. He worked nearly 40 years for the Boston Hose & Rubber Co. He built model railroads. He is survived by his wife, Mildred.

1932 ROY HAYDEN McCRAE, 73, of Englewood, FL, died Sept. 27, 1980. He earned a B.S. degree in forestry and was a member of Sigma Alpha Epsilon. He was a naval veteran of WW II and was collection manager for the National Grange Mutual Insurance Co. in Keene, N.H. He was a member of Euclid Lodge AF & AM and the Monadnock Lions Club. He is survived by his wife, Gladys; and a sister.

1932 GEORGE NELSON UMPHREY, 68, of Pompano Beach, FL, died Sept. 10, 1980. He earned a B.S. degree in agricultural education and was a member of Sigma Chi. During WW II he served with the U.S. Navy Seabees. He managed a sporting goods store until 1964 when he retired to Florida. He was a deacon of the First United Presbyterian Church of Pompano Beach, FL. He is survived by his wife, Marie; a sister and two brothers.

1933 WHITELEY INNES ACKROYD, 70, of Towson, IN, died April 25, 1980. He earned a B.S. degree in civil engineering and was a member of Sigma Phi Sigma. He was a U.S. Army veteran and a civil engineer with the Maryland State Highway Administration. He is survived by his wife, Thelma; a son, a daughter, and a stepson.

1933 FRANCIS ALBERT CRAIG, 68, of Ajijic, Jalisco, Mexico, died March 13, 1980. He earned a B.S. degree in mechanical engineering and was a member of Phi Gamma Delta. He was an engineer for the American Machine & Foundry, Brooklyn, NY; Talon, Inc., Meadville, PA; Wittemann Co., Buffalo, NY; and Revlon. At the time of his retirement in 1968, he worked for Reynolds Metals, Richmond, VA. He is survived by his wife, Betty; four children (including Robert R. '63 of San Francisco, CA) and five grandchildren.

1934 JOHN ALEXANDER POLLOCK, 69, of West Dennis, MA, died Oct. 1, 1980. He earned a B.S. degree in chemical engineering and was a member of Tau Beta Pi. He was the first employee of Decotone Products in 1934 and retired in 1971 as the company's vice president and director of marketing. He was a superintendent for the Pilgrim Covenant Church, Fitchburg. During WW II he served in the U.S. Navy. He was a member of the University of Maine Pulp and Paper Foundation, and a 27-year member of the Fitchburg Rotary. He is survived by his wife, Ruby.

1935 (Ralph) DONALD STONE, 66, of Belfast, ME, died Sept. 22, 1980. He earned a B.S. degree in civil engineering and was a member of Lambda Chi Alpha. He was senior vice president and director of Stone & Webster Appraisal Corporation, where he worked 38 years. He retired in 1979. He was an international president of the American Society of Appraisers. He is survived by his wife, Virginia Trundy '36; two children and a granddaughter.

1935 RUSSELL ARCHER WALTON, 68, of Bangor, ME, died Sept. 19, 1980. He earned a B.A. degree in economics and was a member of Alpha Tau Omega. He was branch manager for Occidental Life Insurance Company. He was a member of the Exchange Club in Stamford, Co. and the Eagles Club in Bangor. He is survived by his wife, Lena; a brother and a sister, two sons (Russell A. '71, of Hermon and Philip A. '68, of Bangor); one daughter and four grandchildren.

1936 RAYMOND HENRY GAILEY, 68, of South Portland, ME, died Sept. 20, 1980. He earned a B.A. degree in history and government and was a member of Delta Tau Delta. He was a copy editor for the Guy Gannett Publishing Company for 38 years. He was secretary of the South Portland Democratic Men's Club, area chairman for the Heart Fund Drive and a member of IOOF. He is survived by his wife, Elizabeth.

1936 CATHRYN RITA HOCTOR, 73, of Winter Haven, FL, died Oct. 15, 1980. She earned a B.S. degree in education, an M.Ed. in 1941, and a Ph.D. from Teacher's College, Columbia University. She was a member of Alpha Omicron Pi, Kappa Delta Pi, and Sigma Mu Sigma honor societies. She was director of teacher training in Fort Kent; elementary school supervisor in Concord, NH; critic teacher at Salem (Mass.) Teachers College, and supervisor of elementary education for the Connecticut State Department of Education. She was alumni secretary for the Southern NH Association and also wrote the column for her class in the *Maine Alumnus*. She is

survived by three brothers (including John M. '41, of Orono), and three sisters (including Ann Hoxtor Mullen '64, of Old Orchard Beach, ME).

1936 ROGER DEXTER HUTCHINS, 66, of Cape Porpoise, ME, died Sept. 14, 1980. He earned a B.S. degree in mechanical engineering and was a member of Sigma Alpha Epsilon. He was a captain and flight pilot for the USNR from 1936 until 1960. He was chief engineer in Anti-Submarine Warfare Systems, Washington, D.C. He is survived by his wife, Joyce; two brothers, two sisters, three daughters (including Barbara Hutchins Hunter '77, of Augusta), two stepchildren (Philip Stirk '68, of Sanford and Susan Files Farnsworth '70, of Arundel), and six grandchildren.

1936 FREDERICK BRADLEE LUNT, of Presque Isle, ME, died Nov. 18, 1980. He worked 39 years for the Maine Central and the Bangor and Aroostook Railroads. He was a vice president at the time he retired. He was president of the State 4-H Foundation, chairman and director of the Central Aroostook Red Cross, a member of UMO's Development Council. In 1967, he won the Outstanding Civic Leaders of America Award. He served in the 107th and 108th Maine State Legislatures, and for nine years was a member of the Presque Isle City Council. He is survived by his wife, Phyllis; a sister, two children, and two grandsons.

1938 WALTER MARSTON SMITH, 69, of Waynesboro, VA, died April 10, 1980. He was a member of Phi Mu Delta. He retired from his mechanical engineering work at the DuPont Company in Waynesboro. He is survived by his wife, Hazel; a brother, and five children.

1939 CARLTON CLARK CRESSY, 66, of Almonte, Ontario, died Sept. 25, 1980. He earned a B.A. degree in economics. He was vice president of MacLaren Newsprint Sales, Ltd. He retired in 1980 and continued consulting. He was a director of Madison Bower Paper Co. and a member of the Masons and Shrine. He is survived by his wife, Janette, and three daughters.

1940 MARIANNE RUSSELL FELLOWS, 61, of Bucksport, ME, died Aug. 28, 1980. She earned a B.A. degree in zoology. She was a member of the Bucksport School Committee. Survived by four daughters (Patricia Fellows Berry '64, of Bucksport; Frances Fellows Willard '67, of East Millinocket; Martha Fellows Lounsbury '68, of South Weymouth, MA; Ann Fellows '81, of Orono) and seven grandchildren.

1940 LAWRENCE LOUIS McPHEE, 63, of Portsmouth, NH, died Oct. 6, 1980. He earned a B.S. degree in mechanical engineering and was a member of Theta Chi. He retired in 1977 after 33 years at the Kittery Naval Shipyard. He was a member of the NH Society of Professional Engineers, the American Mechanical Engineers, and the American Legion. He is survived by his wife, Dorothy; two sisters, three children, and four grandchildren.

1940 OCTAVE FRANCIS RICHARD, 61, of Arlington, MA, died June 23, 1980. He earned a B.S. degree in civil engineering and enrolled in graduate school at Northeastern University. He was a Captain in the U.S. Army and worked for Stone & Webster in Boston as a structural engineer. He is survived by his wife, Margaret, and two sons.

1941 DR. WILLARD EDWARD FENDERSON, 60, of Calais, ME, died Sept. 20, 1980. He earned a B.A. degree in zoology, received his M.D. from Tufts University in 1944 and was a member of Delta Tau Delta. He was a Lt. Commander in the Marine Corps. He was a member of Sherman Brothers American Legion Post of Calais and a deacon for the First Congregational Church. He is survived by his brother, Frank; two children, and two grandchildren.

1941 WAYNE MARSH GARLAND, 64, of Manchester, CO, died Aug. 14, 1980. A graduate of Gorham Normal School, he worked 26 years for Pratt & Whitney in East Hartford. He was chaplain and high priest of the Delta chapter of the Masons. He is survived by his wife, Pearl, and a brother.

1941 RICHARD PAUL SULLIVAN, 60, of Acton, MA, died Nov. 18, 1980. He earned a B.S. degree in mechanical engineering and was a member of Alpha Tau Omega. A U.S. Army veteran, he served in the South Pacific and received the Silver Star and three Purple Hearts. For 28 years he was executive vice president for DI Electric Products of Raymond, ME. He is survived by his father, a brother, a sister, his wife, Virginia; three children, and a grandson.

1943 CHARLES BOSWELL ADAMS, 59, of Binghamton, NY, died Aug. 14, 1980. He earned a B.S. degree in mechanical engineering and was a member of Phi Mu Delta. He was a licensed professional engineer for the General Electric Co. and managed company laboratories. He is survived by his mother, his wife, Edith; two daughters and two grandsons.

1943 THOMAS LANE CLIFFORD, 59, of South Paris, ME, died Oct. 11, 1980. He earned a B.S. degree in poultry husbandry and was a member of Phi Mu Delta. A retired Lt. Col., he served in the Army Corps of Engineers in WW II and in the Korean War. He worked for John O'Donnell Associates in Auburn. He was former town manager of Paris. He was a member of the First Congregational Church. He is survived by a sister (Helen Clifford Millay '44, of Bowdoin), a brother (Earle R. Jr., '50, of Baton Rouge, LA), his stepmother, and two grandchildren.

1944 AGNES DOLE AMBROSE, 61, of Tryon, NC, died Aug. 6, 1980. She earned a B.A. degree in history and government. She is survived by her husband, James R. '43; four brothers (Francis H. '41, of Tuscaloosa, AL; Arthur S. '42, of Caldwell, ID; Lawrence P. '52, of Rockville, MD; and Roger W. '68, of Herman), three sisters (including Priscilla Dole Wickett '59, of Bowie, MD and Harriette Dole Pickard '51, of Hermon); four sons and five grandchildren.

1947 SHIRLEY HAINES HEDIN, 55, of Orange Vale, CA, died Sept. 14, 1980. She earned a B.A. degree in nursing. She was a nurse for Folsom-Cordova, CA schools until June of 1980. She is survived by her husband, Allan, and three children.

1950 RAYMOND EARL GARDNER, Jr., 55, of Kittery, ME, died Sept. 14, 1980. He earned two B.S. degrees in agricultural and electrical engineering in 1950 and 1951, respectively. He was a member of Tau Kappa Epsilon and served with the U.S. Army during WW II. He was an electrical engineer for the Kittery Naval Shipyard from 1951 until he retired in 1970. He built a 36-foot yacht. He is survived by his wife, Virginia; three children and two grandchildren.

1950 DANA HOLBROOK JACOBS, 58, of Acton, MA, died Aug. 25, 1980. He earned a B.A. degree in public management. After serving as town manager for several Maine communities, he was a contract specialist at Hanscom AFB, Bedford, MA. He is survived by six children.

1950 THOMAS JOSEPH LAPLANTE, 50, of Van Buren, ME, died Oct. 19, 1980. He studied agriculture for two years and served with the U.S. Army in Korea. He was an ironworker in Madawaska. He is survived by his wife, Germaine; eight brothers, six sisters, and five children (including Monique '83).

1950 JOSEPH EDWARD NICKLESS, of Hampden, ME, died May 6, 1980. He earned a B.A. degree in physical education, was a member of the "M" Club and Phi Mu Delta. He was supervisor of claims for the Bangor office of United States Fidelity &

Guaranty Company. He is survived by his wife, Kathleen Kennedy '49, and three children.

1952 DALE BOOKER GIFFORD, 54, of DeLand, FL, died Sept. 5, 1980. He earned a B.S. degree in wildlife conservation. A U.S. Army Veteran of WW II, he was a fire warden, a draftsman in Redwood City, CA, and an employee of the Volusia County (Florida) Tax Assessors. He is survived by his wife, Joan; a sister (Charlotte Gifford Sinnett '43, of Portland), a brother (William E. '42, of Redlands, CA), four children and seven granddaughters.

1953 WESLEY YORK ELLSWORTH, 49, of Gulfport, MI, died Nov. 2, 1980. He served 26 years in the U.S. Air Force, retiring in 1977. He completed his B.S. degree in 1980 at William Carey College in Mississippi. He is survived by his wife, Elizabeth; three sisters (including Evelyn Ellsworth Dearborn '49 of Orono), and five children.

1956 DONALD LEE FUNKING, 45, of Fairfax, VA, died July 26, 1980. He earned a B.S. degree in forestry, studied further at Stanford University and was a member of Sigma Alpha Epsilon. He was a forester for the U.S. Department of Agriculture. He was assistant director of timber management (USDA) in Washington, D.C., charged with implementing the National Forest Management Act, and the Resources Planning Act. He is survived by his father, his wife, Carol; and two daughters.

1956 THEODORE JOHN KEGELMAN, Jr., 45, of Montclair, NJ, died Aug. 22, 1980. He earned a B.A. degree in history and was a member of Theta Chi. He was a Lt. Col. in the U.S. Army and a military attache in Bolivia. He served in Vietnam and West Germany. He is survived by his parents, Mr. and Mrs. Theodore Kegelman; his wife, Ingeborg; and two sons.

1956G ALVAH IRVING McINTOSH, 48, of Bangor, ME, died July 5, 1980. He was graduated from Farmington Teachers College in 1953 and received his M.Ed. in mathematics at UMO. He was a teacher and administrator in Bangor schools. He was a management consultant for Winters Associates Ltd., Bangor. He is survived by his mother, three brothers, two sisters, his wife, Joanne; and five children.

1956 LLOYD EARL ROBINSON, 46, of Biddeford, ME, died Sept. 13, 1980. He earned a B.S. degree in civil engineering and was a member of Lambda Chi Alpha. He was a U.S. Naval veteran and worked 24 years as a general engineer at the Kittery Naval Shipyard. He was a communicant of St. Mary's Church and a member of its Parish Council. He is survived by his mother, two sisters, his wife, Jane and three children.

1958 DAVID ARTHUR McKEEN, 42, of Albion, ME, died Sept. 28, 1980. He earned a two-year degree in agriculture. He was a farmer and a deacon at Knox Ridge Baptist Church. He is survived by his parents, a brother, three sisters, his wife, Jean; six children and a grandchild.

1962 DAVID RICHARD POULIN, 42, of Rumford, ME, died Sept. 8, 1980. While at Orono he studied education and earned his B.S. degree at Farmington. For 16 years he taught at Rumford High School. He was a member of the MTA and the NEA. He is survived by five sisters, four brothers, his wife, Jeannine; three daughters, and a granddaughter.

1964 ALLAN EDMUND WEEKS, 40, of Sanford, ME, died Oct. 14, 1980. While at UMO he studied electrical engineering and was a member of Theta Chi. He was an electrical engineer at the Kittery Naval Shipyard for 20 years. He was a member of the local unit of the Maine National Guard. He is survived by his mother, three sisters, a brother and his step-mother.

1965 PATRICIA ROHR STUBBS, 35, of Wiscasset, ME, died Oct. 6, 1980. She earned a B.S. degree in education. She taught in several southern Maine communities. She is survived by her parents, a sister, her husband, Richard; two children, and two stepchildren.

1966 DR. TIMOTHY HALL MAGUE, 35, of North Edgecomb, ME, died Oct. 19, 1980. He earned a B.S. degree in biochemistry, an M.S. and a Ph.D. degree from the University of Wisconsin in 1970 and 1971, respectively. He was a member of Phi Kappa Phi and Phi Beta Kappa honor societies. A senior research scientist with the Bigelow Laboratory in Boothbay, he was a member of the American Institute of Biological Sciences and several other professional associations. He is survived by his parents, two brothers, a sister (Deborah S. '65, of New Orleans, LA); his wife, Frances; and two children.

1968 WILLIAM FRANCIS GORE, 49, of Portland, ME, died Aug. 21, 1980. He earned a B.A. degree in political science and an LL.B. in 1971 from the University of Maine Law School. A former assistant attorney general, he also served on the Maine Milk Commission, the Maine Criminal Justice Planning and Assistance Agency, and the Portland School Committee. He was a communicant of St. Patrick's Church and a member of its parish school board. He was a 21-year Air Force veteran. He is survived by his mother, his wife, Barbara; six children and a grandson.

1971 G ERLAND HODGKINS, 62, of Lisbon, ME, died Oct. 7, 1980. He graduated from Colorado State College and received his M.Ed. in guidance at UMO. He taught in Massachusetts and New Hampshire, retiring in 1974. He is survived by a sister.

1971 DONALD WAYNE WILBUR, 29, of Eastbrook, ME, died Sept. 8, 1980. He was a registered land surveyor and a member of the State Board of Registration for Land Surveyors. He belonged to the United Baptist Church of Ellsworth. He is survived by his maternal grandmother, paternal grandfather, his parents, two brothers, a sister, his wife, Debra; and one child.

1972 JOSEPH WILFRED DONOVAN, 31, of Blaine, ME, died Oct. 14, 1980. He earned a B.S. degree in civil engineering, and worked for Hatfield Randall Associates. He had also been a member of Presque Isle Lodge of Elks and St. Mary's Church. He is survived by his parents, two brothers, two sisters, his wife, Lois; and three children.

1973 REV. DAVID HENRY MacLEOD, 31, of Springfield, MA, died June 29, 1980. He earned a B.A. degree in sociology and received his Master of Divinity in 1973 from Bangor Theological Seminary. Ordained June 10, 1973, in Bangor, he was associate minister in Grand Rapids, MI, and Springfield, MA. He is survived by his wife, Margaret.

1975 MARY CHRISTINE O'HAYRE, 24, of Cohasset, MA, died July 20, 1980. She graduated with a degree in animal husbandry and was a veterinary assistant at the Cranberry Highway Animal Hospital in Buzzards Bay, MA. She is survived by her parents, Robert and Genevieve O'Hayre, two sisters and a brother.

CORRECTION

Clarence McLellan Weston was a member of the Class of 1908, not 1906 as was published in the Winter issue of the *Alumnus*.

1929 SMITH WHITTIER AMES, whose obituary appeared in the Fall '80 *Alumnus* is survived by his wife, Elinor, two grandchildren and three great-grandchildren. He was pre-deceased by his daughter (Joan Ames Chase '52).

EXCELLENCE IN THE EIGHTIES

1980

Early 1900's

Pursuing the ideals and high standards we started with as a University is more difficult today than yesterday.

Oldest Alumnus Is 102!

Two alumni, whose lifetimes each span more than a century, will soon celebrate birthdays. Howard C. Strout (class of 1900), who will be 102 on March 18, is the oldest UMO alumnus. Strout says saltily, "You've got to be tough as the Devil these days." He is caught here gazing out his favorite window at Marchalin, his home in Milbridge, Maine, where he has lived since the center opened in 1976. He queries photographer Cathy Palmer, "did you get a good picture?"

Margaret Redmond '35, who lives nearby, says her father dislikes bingo and attends church services. Strout earned a degree in electrical engineering and worked 44 years for the General Electric Company. He retired to his home town of Harrington and as the town's oldest citizen he holds the Boston Post gold cane.

The second oldest alumnus is Ernest A. Porter '03, who will be 102 on October 28. He lives with his wife, Emma, 98, at the Brentwood Nursing Home, Brookline, MA.

Both centenarians are members of Kappa Sigma Fraternity.

Class Notes

14 Roy W. Peaslee
RR 3, Box 201
Concord, NH 03301

A note from Mario (Count) Martinelli: "Getting here again — Christmas 1980 — can well remember my first Christmas in college — 1910 — how anxious I was to get home to see the folks. Now I am alone and have only myself to worry about." Many nostalgic moments come to the 1914ers these days, Mario. Congratulations to a 1915 friend Harold E. Hodgkins and his wife who were honored last fall on their 50th wedding anniversary. Harold is a retired engineer with the Electric Public Utilities Company in Albany, New York. The Hodgkinses moved to Lamoine in 1957 and are active in church and community affairs. Also best wishes from a "young" 1910 friend, Dimon E. Merrill: "Best wishes to my class members and friends. I'm still going strong at 94 years. Caring for lawn and garden keeps me limber and a whiff of good Maine air several times a year keeps me young!"

Your secretary is not strong enough to push over any buildings but could manage to open a letter if you send me some news. HAPPY NEW YEAR! Note new address.

16 Julius Kritter
10 Pleasant Street
Groveland, MA 01830

17 Edith (Ingraham) Glover
265 Main Street
Orono, ME 04473

The Class of 1917 did not have a column in the Fall 1980 *Alumnus*. Because I was away from Orono, I did not receive deadline material, but I have news to report and hope to hear from each of you in the new year. I am presently in Hahira, GA with my son Fred at 309 E. Lawson St., 31632. Mail sent to Orono will be forwarded. After a visit with my son John '42 and family in Arlington, VA, I spent Christmas day being introduced by my three Georgia grandchildren to their new babies, all born since I left last spring. I now

have eight great grands — six girls and two boys. I was hardly able to enjoy them as I was developing a case of flu. Five others in the family also took ill, including one of the babies who had to spend several days in the hospital.

On a happier note, I will share the activities of my son, the Rev. Frederick Glover '49, a Methodist minister. Two years ago he toured the Holy Land with his wife. Last fall he spent ten days in Jamaica where the United Methodist Church is building a church and a parsonage to help troubled Jamaica in its struggle for a better life.

I keep in touch with our class president by telephone when I am in Orono. From him I hear Ed Dempsey is hoping to be with us next June for alumni days, when he returns to New Jersey, after spending the winter in Florida. We hope so, too, Ed. Charles reports he recently "bumped" into Garth Noyes and his wife, Mary. Garth, who lives in Glenburn, was honored for 60 years of membership in the Kenduskeag Masonic Lodge. The Grand Master of the Grand Lodge of Maine Masons participated in the ceremony. Garth has been active in Masonry, particularly in the Knights of Templar, of which he is a Past Commander.

I plan to arrive home in Orono in May, that I may welcome you there when you arrive for our annual reunion, and to serve you a convivial cup of tea. I'm extending to you who have never come to reunion a personal and urgent invitation to come this year. It would be such fun to greet you — trying to guess who you are, or better still — recognizing you at once. Before I leave Georgia, I hope to spend a few days in Florida calling on old friends and perhaps attending a UMO alumni meeting. Happy New Year.

18 Francis Head
The Village Inn
Lenox, MA 01240

Wes Evans hasn't moved from Kell St. in Orono in 50 years. He was not able to read the class notes until last summer in Florida. "That was an experience to remember," he writes. "In about half an hour the cataract was removed and a lens implanted and now my eyesight is as good as it was 40 years ago. No pain, no fuss. Gardening, wood-working, structural work for an architect. Sitting by the fire is better than

trudging the woodland for a deer. 11 grandchildren and 11 grands. We have seen society move from horse and buggy to men on the moon and computers. **Harold Redding** and I will represent the class at reunion.

Brother of **John Tenney** writes for him: In WWI he served in France in A.E.F., then made cabinets, worked for General Telephone, and retired in 1958. He was a "rock-hound" with the Boys Club, grinding, polishing, gem-stone finishing. He now suffers from the effects of Parkinson's Disease.

19 *Stacy L. Bragdon*
47 Parker Road
Wellesley, MA 02181

From **Ken Wooster** from Boynton Beach, FL: "I do hope that you are feeling better. You and Florence have my deepest sympathy. We are doing as well as one could hope for. One thing is certain — the problems of old age are about the same with all of us. Freda and I have long since lost our family contemporaries. We now have a great-grandchild born in Honolulu. My wife was a classmate and a cousin of the late Ralph Whitehouse and they grew up together in Fort Fairfield. My native town was Rockport. My brother Hollis died two years ago. He married Caroline Streeter who taught physical education at the University of New Hampshire.

He continues: "Our daughter, Nancy, lives in Hawaii and has four children and a grandchild. We have a house here in Leisureville, FL, a section of Boynton. As we are both arthritic, the snow and ice of New England would be difficult in the winter. We can get around to shop here from November to May in relative comfort. One thing is certain, I would not swap one square foot of Maine for all of Florida. If it were not for the rugged winters I would never have left New England. When I was a kid in Rockport, hunting foxes and rabbits in the surrounding hills and mountains was a sport I fully enjoyed. Truly the aging process carries a lot of things not too pleasant, but have to thank the Lord for all the blessings we have and not think only of the unpleasant things."

Ralph V. Slinnett from Clemson, SC. "I am sorry that you have been ill. It is very much like you to carry out your responsibility to get class news when you are under the weather. The only news I can give you is that my sister and her husband, John A. Snell '27, visited me for several days over the Christmas holidays. They live in Venice, FL, but they spend the summers at their apartment in Augusta. Before retirement, he was Chief of the Bureau of Vocational Education of the State of Maine."

Responses to my pleas for class news continue to be scarce. I hope that during 1981 more of you will write me.

20 *Lawrence P. Libby*
807 Union Street
Bangor, ME 04401

Henry R. Butler is one of a dozen grandparents who participate in a reading program once a week at the Asa C. Adams School in Orono, where 12 third graders take their books for a one-on-one reading session with an adult.

Betty Mills Towner expects to fly to Indiana to visit her son, John, and to see friends and family who live in Ohio and Illinois.

60th Reunion, June 1981

21 *Emilie (Kritter) Josselyn*
229 Kenzo Avenue
Haverhill, MA 01830

To all my classmates and their families — a very happy and healthful New Year. To all of you who helped me write this column — thanks. This news is

written with the hope that it will refresh your memory and encourage you to return to our 60th reunion. There is still plenty of "pep" in the class!

Remember **Arthur Chambers**? He continues to be one of our most loyal. His wife, Miriam, whom he married in '24, "is still putting up with his whims and idiosyncrasies." "In '25 we moved to Philadelphia and were there for 53 years. In '49 I started The Chapman Industrial Finishes, Inc. in Philadelphia. It was reasonably successful. I retired in '71. Our son is now president of the company. In '76 we moved to Englewood, FL where **Ruth** and **Howard Sewall** and **Rena (Campbell) Bowles** were already happily situated. In Jan. we are taking a Caribbean cruise. Don't forget June '81."

From **Hollis (Holly) Jones**: "We sold our home in Hawaii and moved to 3050 LaJolla St., San Diego, CA. We visited my sister in Maine and filled up on lobsters and beans." Much joy to you in your new home. **Sarah (Witherell) Elliott**, Kittery: "After my husband died, I went to work in the dietary department of the Portsmouth Hospital. I enjoyed the work and stayed there 15 years. I used to sew a lot but can't now see the thread." **Harry Greenleaf**: "After graduation, I worked for Western Union and General Electric in Lynn, MA. In '23 I worked 28 years for the State highway bridge division. I became the Division Engineer in the Portland office in 1951 until retirement in 1964. I expect to attend our 60th in June."

Donald W. Stuart, Saskatchewan: "Expect to be in Maine, but will miss our reunion. I do hope to get in touch with president **George Glnsberg** for a report. **Leah (Ramsdell) Fuller** is in a nursing home; 2 Maple St., Rockland, ME 04841. She would be glad to hear from Maine friends." **Warren Preble**: "Am in pretty good health at 83. I spent my whole life in the insurance business; first as an agent, then general agent for many years. I used to play golf; now it's contract about every day, bingo on Saturdays. My twin sons live within an hour's drive. I go to Vegas two or three times a year." **Horace Crandall**, Shrewsbury, MA: "I'm living in a very attractive apartment complex. I have three women taking care of me and cooking my meals. I feel quite well except for a spinal injury. My three children visit every weekend. I am latch-hooking my eighth rug."

Katherine Stewart: "Having majored in mathematics and taken courses in engineering and physics, etc., I looked for a job in an engineering firm but preference was given to returning veterans. However, Dean Hart asked me to become his secretary, a position which I thoroughly enjoyed. Until I retired in '64 I worked in the registrar's office at UMO under Jim Gannett; at Dow Air Force Base in an insurance office; a lawyer's office; for the Bangor Police and spent a year in Boston and New York. I travel every summer to be with three generations of cousins at our cottage on Phillips Lake. I knit, sew, do embroidery, attend meetings of Southern Penobscot Alumnae, YWCA and church related groups.

Gladys (Maxfield) Relly: "I graduated with a B.A. in English and taught until '39." **Florence Morrill Kelley**: "In June I made my sixteenth trip to England. This time I took my daughter with me. I struggle to thread a needle, but I manage. To date I've made 36 afghans, and lost count of my production of hooked rugs. I am looking forward to my annual to Maine." **Francis "Mike" Foley**: "For 20 years I was manager of New England Milk Producers' Assoc. In '45 I returned to Maine and developed a plant for manufacturing evaporated milk. The finished product was sold to candy manufacturers. In '59 I returned from an extended illness to find that my evaporated milk business had been lost. I have been married for almost 50 years and have one daughter and two sons."

Alice Whiting, Winthrop: "I have been delighted to read the biographical sketches of our classmates. My professional life was spent in education, several years in Massachusetts and 25 in California. I manage to keep busy in retirement."

Melville Moulton: "I am sorry to say that I have never been back to a reunion or to A.T.O. (come to our 60th!) Soon after leaving Maine I bought a small farm in Alfred. In 1928 I sold it and bought a farm in St. Johnsbury, VT which I operated until '73. I have served on agricultural conservation committees, the local board of Farmer's Home Administration, the board of directors of the Merchants National Bank (for 25 years) and more recently, on the discount committee of the First National Bank of Vermont. For 23 years I lived in Dunedin, FL. I enjoy retirement, keeping busy all the time and hope to attend our 60th. I still have happy memories of our 50th.

Lindsay March: (Thanks for your special good wishes and kind words). "I read the *Alumnus* each time it comes. It is nice to have it to recall those good days. I expect to see some Maine grads at reunion in Saratoga in the spring. Columbia University in '23 for master's degree — married Faith Buckingham of Worcester in '24. We have three children including Jackson '51, a forester now in Spring Hope, NC, and seven grandchildren. I was a high school principal in Maine and Massachusetts for 41 years retiring in '62. In '69 we bought a home in Ellentown, FL where we spend our winters. We have just celebrated our 56th wedding anniversary."

Remember **Bob Cohen** in your new year's greetings. Your officers know how much Maine means to him and how often he helped in all our projects. His address: Apt. 10, 16 Courtney Street, Fall River, MA 02272.

22 *Leslie W. Hutchins*
30 Alban Road
Waban, MA 02168

23 *Ruth (Spear) Rich*
Prides Crossing, MA 01965

Marjorie "Mardi" (Willey) Frost and **H. Stuart (Jack) Frost** are enjoying their home in Glendale, CA. Their daughter lives about seven miles away. Two grandsons are in college. "Mardi" invited her sorority alumni group and their husbands to the Country Club for dinner.

Robert C. Calderwood served the United Methodist churches in central Illinois for more than 46 years. His current assignment is minister of membership with special responsibility in evangelistic outreach. He volunteers to serve offenders and ex-offenders in the McLean County Jail. He is on the board of directors of the East Illinois Health System Agency, now chairman of the Mental Health Task Force. Having earned Phi Beta Kappa honors at Orono, he received his M.A. degree from the University of Chicago and an honorary degree from Illinois Wesleyan University.

Doris Allen presented a lecture on the subject of psychodrama at U of M Machias. Dr. Allen retired from the University of Cincinnati where she taught courses in psychology. She has been teaching at UMO since 1972. As a result of the work of Dr. Allen, the Institute of Social Learning & Psychodrama at UMO was formally opened last April. According to Dr. Allen, psychodrama was originally developed to deal with mental patients and clinics, but is being used with family, co-workers and neighbors. It is a technique of conflict resolution through dramatization.

24 *Ethelyn (Percival) Howard*
112 Eastern Ave., Apt. G-2
Augusta, ME 04330

My sympathy to several classmates: to **Phil Sargent** for the death of his wife, Vi, Oct. 22, only eight days after she took a gold shot for arthritis. They recently moved to 16 Juniper Road, Brunswick, ME 04011. To **Anna Kettell Young** on the death of her brother, Hjalmar Kettell, and her sister, Alice Harkness. To

Alice Doble Sargent on the death of her brother, Charles '28. **Dolores Mutty Pinto's** son, Robert, died in November and **Paul Badger** died last June.

Howard Reiche played for the Mayflower Society meeting in Scarborough. **Ray Carter's** daughter, Gail Harvey '60, was married Nov. 28 to former city manager of Bath, Larry D. Cilley '61. She is Ward 3 City Councilor for Gardiner. **Ivan Pease** is at Ledgewood Manor, RFD #3, South Windham, ME 04082. In December, **Ann Robison** visited former UMO President Howard Neville at a Buffalo, NY hospital where he was recovering from surgery. Ann was invited to Israel by the Foreign Ministry. A Lungmobile was donated by the Bergen-Passaic County Lung Association in honor of Ann's 75th birthday. She travels to San Diego and Costa Rica this year for the Triennial of the International Association of University Presidents.

Cliff Reynolds' wife, Mollie Farrin Reynolds '56, lost her bid for State Representative in the November election. The couple has a son, James, who is on the faculty of the Maxwell School, Syracuse, NY; and one granddaughter, Amy. **Ted Hatch** writes of his Bedford Award and Medal, the highest honor of the British Occupational Society, awarded him in Cardiff, Wales. It cited his years of research, teaching and writing in the field of occupational hazards, especially diseases caused by inhaled particles and dust. He has co-authored two books on the subject. His wife, Jane, went with him to Wales.

Irene Guppy Parsons writes from Sun City, AZ that winter floods washed out several bridges in Phoenix. Air conditioning in houses and cars help her endure summer's 110° weather. In 1978 Irene and her housemate spent six weeks in New Zealand and Australia. She was there in 1974 as the result of corresponding with a New Zealand woman for 22 years. She published an article "Tramps" in *Maine Life* in Nov. 1979. Irene's son, Robert L. Parsons '51, is a cardiologist in Streator, IL. He and his wife, Beverly Pettingill '53, have five children. Irene has four great-grandchildren.

Send news for the next column by early April.

25 **Mildred (Brown) Schrupf**
84 College Ave.
Orono, ME 04473

Reunion, June 1981

26 **Mary M. Roche**
166 Gravel St., Apt. C-7
Meriden, CT 06450

About the Secretary: After graduation, I taught 15 years in secondary schools. That was during the Depression, when teachers often had payless paydays, but plenty of work. During World War II, I worked for Andrew B. Sides, president of a Portland shipbuilding company. In 1945 I joined a law firm as legal secretary. I liked the logic and precision of the law so I spent 23 years with a New York City law firm. Now retired, I am only 100 miles from New York City. I am a member of the Business and Professional Women's Club. At present, I am editing a collection of letters from my Irish ancestors and from my granduncle, who died in the Battle of Fredericksburg in 1863.

Another pleasant duty is collecting news for the Class of 1926. Overall, I think two words will summarize my life: work and faith.

27 **Peg (Preble) Webster**
93 Norway Road
Bangor, ME 04401

Welcome new *Alumnus* editor, Catherine Palmer.

Danny and I went to Georgia in December, just after our granddaughter, Jessica Leanne, was born. Nothing like a few weeks with three small children to make you wonder if you are really as young as you think you are.

First a correction. **Hal Barker** notes in the summer *Alumnus* I reported Hal and Bill Rich '26 as ATO fraternity brothers. I should have said Delta Tau Deltas.

Ray Wood comes annually to Maine. From his desk at Wood Sales Co. in Palatine, IL, Ray writes: "I wound up my career as Director of Engineering of the Electronic Component Division of TRW. Instead of retiring, I became a manufacturer's representative. I will spend the winter in Yuma, AZ." **Paul Lamoreau**, our Aroostook County connection, reported seeing **Arthur Staples** of Presque Isle; **Wallace Higgins**, retired to his Presque Isle farm; and **Kenneth Proctor**, now lives in Florida but migrates to P.I. for a summer visit.

Edith Hoyt Humphrey writes: "I'll be spending two months in Claremont, NH and two months in St. Louis. I have six grandchildren and one great-granddaughter." From **Florence "Gushee" Taylor**: "I expect to trip to Florida for a while in January. Can you believe it — our 55th in only 1½ years' time? We'll make it!" **Elwin "Spud" Hodgins** and his wife, Pauline, celebrated their 50th wedding anniversary. Treasurer **George Dow** helped Nobleboro's Historical Society restore an 1853 school house which is now the Nobleboro Historical Center.

From **Tom and Evelyn Bixby**: "I am president of a retired men's organization — the SIRS, a California group with 20,000 members. Did not get to Maine this year and probably won't in '81 as we are booked for a month in May-June for an apartment in London. '82 will be a different story. I plan to be in Orono for our 55th." The **Wyman Gerrys** have moved to Florida. I missed the Brewer Senior Alumni dinner or would have seen **Marlin MacLaughlin** who is now back in Montgomery, AL. **Elmer Kelso** and Dot '29 have made their annual move. New address: 5080 Locust St.; N.E. #119; St. Pete. They sold their home in Bridgton.

28 **Matthew Williams**
171 Pleasant Street
Dover-Foxcroft, ME 04426

29 **Reginald H. Merrill, Sr.**
105 Colonial Circle
Brewer, ME 04412

Thanks to **George D. "Bill" Bixby** for this postcard from Greece. Bill wrote: "We are on a month's tour. Left Phoenix Oct. 22. We go to Egypt next, then Israel, Cyprus, Athens. Fly to Phoenix via Copenhagen and L.A." **Carleton D. Staples** says: "We have had a quiet summer except for entertaining daughters and grandchildren. Ruth and I are leaving Dec. 9 to visit a daughter in Santiago, Chile. We plan to stay about a month."

From **Bob Parks**: "Still going along in retirement — active in SCORE cases. Teaching at Cape Cod Community College."

George Rose writes: "We have been very busy throughout the year including a visit to Oberammergau to see the Passion Play. We hope that our grandson will enter UMO next fall." At the time "Vic" and "Kay" **MacNaughton** sent me their Christmas card, they were looking forward to receiving the Winter issue of the *Alumnus*, which contained the feature writeup and picture of Kay. "Archie" **Van Smith** and Kate sent a long Christmas letter. Their "big deal" was a two-week trip to St. Paul, MN and Boulder, CO. In late September Van took his annual trip to his "ancestral home" in Steuben, ME. **Whitney M. Baston** wrote: "My life has settled since retirement from NBC New York in 1970. About the middle of May, I pack up my tools and head north for our cottage on Sebago Lake in Raymond, ME. During the summer I stir up all sorts of projects from adding a cottage dormer to changing the cottage trim. Near the end of October I return to the warm Port Washington house."

My fraternity brother **Frank "Pat" Foglia**, retired town manager of Woodland, ME, writes: "I am preparing myself for ice fishing. I spent one day at camp last week to chink between the logs, to stop the snow and drafts from blowing in. I have plenty of dry wood to last well into spring fishing. Pat has been busy in Shrine times, including getting his son to join. Fraternity brother **Jacob S. "Jake" Andrews** writes that his health has not been good the past few years.

Elizabeth McCracken Wilhelm writes from her Oak Brook, IL home, "Our friends are all retiring to Arizona and Florida but I would say we are more active than ever." Elizabeth's husband, George F. Wilhelm, president of the R.S. Bacon Veneer Company of Hillsdale, IL, announced that his company has purchased the Mid-Equipment Plant and will move its manufacturing operations from Dubuque to Grundy Center, IA.

Reginald Merrill Sr.

Lifetime Kiwanian

Referring to himself as "an emotional cuss," **Reginald H. Merrill, Sr.**, Bulletin editor for the Brewer Kiwanis Club, and a member for 28 years, accepted the second lifetime membership ever awarded to a Brewer Kiwanian.

"I am frank to admit my eyes were full of tears," Merrill said about the emotion-packed ceremony Kiwanians call "roasting" during which he was presented a bronze desk plaque commemorating his lifetime membership. The award was given by past international officer **Claude Rider**.

30 **Jeanette (Roney) Pero**
11 West End Avenue
Westboro, MA 01581

We had a fine trip to Europe in September. The weather through the Alps was exceptionally good. Salzburg was charming. We spent two nights in Oberammergau, a very pretty town, and found the Passion Play a real experience.

Dr. Mary Crowley Mulvey was presented the Distinguished Achievement Award in recognition of outstanding professional achievement on both regional and national levels at the University's summer commencement exercises. Mary has recently retired as supervisor of adult education for the Providence, RI school department. She is first vice president of the National Council of Senior Citizens.

Arthur Gillespie won 56% of the vote to win a seat on the Corvallis, OR City Council. He campaigned against city vested interests including real estate people, land developers, banks and the local newspaper. This is his first public office and he will serve two years. He is also enrolled in the Graduate School of the Oregon State University.

I wish to thank Hazel Sawyer Everett who sent a fine picture of several of us at reunion. I sadly note the death of Jack Moran, former managing editor of the *Bangor Daily News*. He retired in 1970 and died in South Miami, FL, October 14, 1980, after a short illness.

We've also lost Lee Wescott who was with us at reunion in June. Albert Modery died in College Park, MD in July. We extend the sympathy of the class to these families.

50th Reunion, June 1981

31 Francis McGuire
59 College Avenue
Orono, ME 04473

Our 50th anniversary is nearer than you think (June 4-7) so if you haven't made reunion plans yet you should.

A long note from Frank "Ed" Patten who winters at Boynton Beach in Florida and lives in retirement in Cherryfield, says that a group of Mainers lunch together every month at Imperial House Restaurant in Pompano Beach. (I want to join them sometime.) A letter from George "Duke" Hargreaves says he is now retired from a most distinguished military career in the European Theatre which included a tour with SHAEF (Supreme Headquarters). After serving in England, France, Belgium and Germany, George returned to the States as a full Colonel. Following retirement from the Army, George joined the faculty at The Citadel in Charleston, SC, and later accepted a teaching post at American International College at Westover Field. It is with great sadness I report the death of our class president, Phil Brockway. The Class of 1931 extends to his family our deepest sympathy. (see memoriam section)

32 Linwood S. Elliott
85 Leighton Rd.
Falmouth, ME 04105

I am writing this Jan. 4 at 23 below zero. (Reporters are: Jim Bates, Al Smith, Helen Stearns Lester, Mrs. Roy McCray, Paul Butler, Harry Paul & Biv Holmes.)

In January, Jim and Mary explored the Galapagos Islands, not a tourist cruise but an adventure. Al Smith, after two operations, plans to sell his Hempstead home and move to Florida. "In Memoriam" notes the deaths of Roy McCray and Muriel (Freeman) Brockway's husband Phil '31. Both wives would like to hear from their classmates. Angela Miniutti, according to Biv Holmes, is finding this winter too cold. Sunny Sundstrom and Ham Boynton both suffered heart attacks. Neither man wants to shovel snow this year.

Jim Bates has resigned from the Alumni Council. Laura (Merrill) Burdett returned from a trip to Ireland. Thelma (Gibbs) Long and husband, Malcolm, saw Eleanor (Meacham) Jenks and Bob at Billings Airport. The Longs and Jenks have not seen one another in 50 years! In Cornelius Ryan's book, *The Last Battle*, the author mentions General Wheeler Merriam three times as the Commander of General Patten's reconnaissance unit. So '32 has made WWII historical records! Herb Trask and wife have been to Greece and are now in Vermont. See you in June and at the 50th Reunion in 1982 (I hope!).

Angela Miniutti lives at her old North Berwick home with two brothers and a sister. They subsist on garden produce, about 1,000 pounds of which they freeze and preserve. The original section of her home

was built in 1800. Each member of her family attended the one-room schoolhouse still in a nearby field. Angela also works in the library. How's that from the first Secretary class of '32?

33 Betty (Barrows) Pendleton
Island Falls, ME 04747

Class notes for the Winter *Alumnus* were compiled by secretary Bob Stubbett, who has since resigned. Freeman Webb asked if I would serve until we meet for a mini-reunion in June, so help me keep '33 in print by sending items to me.

For unknown reasons, pledge cards were not enclosed in the last 50th Reunion Fund letter. Tom has sent cards to those who requested them. Send your checks to General Alumni Association, Crossland Alumni Center, UMO, Orono, ME 04469. All money goes first to the Association, then credit to the designated fund is made. Enclose a note to explain your contribution.

Richard and Emily (Thompson) Elliott entertained a large group of foreign dignitaries at the Lumberman's Museum and spent three weeks in Ireland and Scotland. Back at home Dick and Em work as forestry consultants. The couple has 11 grandchildren.

Art Forrestall will compile a booklet of biographical sketches for the 50th reunion. This project will take time, so send your sketches to Art at: 45 Montrose Ave., Portland, ME 04103. Com. Arthur and Beverly Forrestall were in Boston in October for the gala commissioning of the *USS Samuel Elliot Morrison*.

Mary (Sewall) Alden and Blanche Henry attended the Maine School Management Association fall conference for superintendents and school board members. Directors of Oxford County Agricultural

Society dedicated the 1980 year book to Joseph Penley, director for 44 years. Joe's father served before him and his grandfather before that. Daughter Elaine '62 now serves as the first woman director. Joe and wife, Leone, winter at 512-5th St., Brandon Tr.Pk., Brandon, FL 33511.

The October issue of UMO News shows Grace (Reynolds) Clapp at dedication ceremonies for the Roger Clapp Greenhouses.

At the "M" Club breakfast, Homecoming Day, 50-year certificates were presented to Freeman Webb (Track), John Wilson (Football) and Robert Pendleton (Cross Country).

Blanche Henry, John and Virginia Wilson, Evelyn (Plummer) Miller, Luthera (Burton) Dawson, Bob and Betty Pendleton and Dr. John McCarthy attended.

Eleanor (West) Yerxa toured England and Scandinavia. Evelyn (Pollard) Simmonds plans to visit a granddaughter at UMO. William "Bill" Linskey, retired from U.S. Postal Service, lives in South Portland. Frank and Helen (Woodring) Webb will be at Marina Isles-Unit 201, Bldg. 2, 150 Englewood Isles Parkway, Englewood, FL 33533. Stan Prout will live at 714 Vance Circle, Palm Bay, FL 32905. John Wilson has a new address: 4401 Meadow Lark Lane, Boynton Beach, FL 33436.

Jerome Maxfield operates a chemical business at 522 San Vincinte Blvd., Santa Monica, CA. Edith (Dean) Spear and Harvey '36 have retired from the hotel business. Summer finds them at Lake Emden, North Anson, ME and the remainder of the year in Yucca Valley, CA. Arthur and Ethel (Wooster) Farnham were guests of the Spears in Yucca Valley, when they attended their granddaughter's wedding.

Edna (Grange) Hilyard and Bill winter in Newport Richey, FL. Roger Lincoln, retired, lives at 14 Pleasant St., Houlton, ME 04730. Inez Howe has retired from teaching and lives in Portland. Doris

Winners of Alumni Watches

PHIL PARSONS

SHIRLEY YOUNG

ED DECOURCY

class of '34

Then and Now

This trio (above) as they appeared in the 1934 *Prism*, and (at left) relish the old photograph, which Philip Parsons holds during a break at the 45th Reunion. Parsons, Shirley (Young) Brawn and Ed DeCourcy were awarded the watches at graduation for service each one gave to the university.

(Hutchinson) Wiggett is in Northfield Falls, VT. Margaret (Denton) Eaton is now in Wallingford, CT. Sympathy is extended to Alys (Grua) Parsons. Larry died in December. It is also sad to report the death of Winston Hoyt of Phillips, ME.

34 Fern (Allen) Turbyne
70 Boston Avenue
Winslow, ME 04902

E. Clifford Ladd was named chairman of the board of directors of the Central Maine Power Co. Cliff is also chairman of the board and former president of W.C. Ladd & Sons, Rockland; director, Heritage Savings Bank, Snow Harbor Corp.; director emeritus, Know Industries; past director Maine Bonding and Casualty Co. and area board, Depositors Trust Co.

Joe and Mil Massaro met Capt. Parker Folsom, USN retired, now a consultant in Washington, DC. Joe writes that he also entertained John Pearson and Peter Karalekas who hadn't seen each other since 1934. The toast for the occasion was "from this mini-reunion to many reunions!"

Another Christmas letter was from Dottie Romero Gentry, Riverside, CA. She and Adrian now have two grandsons. Francella "Frankie" Dean Corbett and husband Don live in Connecticut. Lillian Wall has moved to 335 Stillwater Ave., Bangor, ME 04401. Even though the thermometer stands at 18° below as I write this, I wish you all a very happy Easter.

35 Virginia (Trundy) Stone
5342 Lakeside Drive
Lake Wales, FL 33853

Janet (Brown) Hobbie regrets being unable to attend our 45th Reunion. She and Cal were traveling in Mexico and Scotland. They also visited their children in Michigan, Oregon, Florida, and Connecticut, and attended Cal's 45th Reunion at Cornell.

John Black worked 21 years as claims adjuster for St. Johnsbury Trucking Co. in Vermont. He and his wife have made two trips to Europe. Their daughters Barbara Destino and Joan Palmer are manager at NET&T in Boston and personnel director at UVM in Burlington, respectively.

Ken Black, Orrs Island, has retired as route manager for Cushman Baking Co. He has three sons: Karl is a television engineer in Great Falls, MT; Robert is with TWA in Kansas City, MO; and Timothy is a kitchen designer in Durham.

Win and Lib (Story '37) Hoyt have a son, three daughters, and two grandsons, one in college at UMO and one at UMPI. Win retired after farming for 35 years. He likes to golf, hunt, fish, paint (oils), cross country ski and garden. Jim Shields, Bentonville, AR, worked as a civil engineer for 44 years. He has a son and four daughters. Norman Smith retired after 40 years with Bangor Hydro Electric Co. He lives in Machias where he operates "Norm's Guns."

Oscar Taylor of Frye was an auto dealer for 30 years and vice president of Maine National Bank for 11 years. He retired from banking in 1974, sold his garage in 1975, and now lives on an "old Oxford Paper Co. tree farm." His daughter, Mary Scribner, is a school librarian in Portland. Rusty Walton has retired to the Bangor area after 45 years as an insurance salesman. His two sons, both graduates of UMO, live in Bangor. One is a hospital psychologist and the other is easement manager at Bangor Hydro. His daughter is athletic director at UNH.

Sylvia (Alpert) Duze, Long Branch, NJ, retired after 32 years as chemical engineer for US Army Electronics Command. She is on the board of "Search," a day program for autistic children. Her daughter, Beth (Mrs. Peter Woolley), graduated from Stockton State College in New Jersey and is currently a high school art teacher in Colt's Neck, NJ.

Willis Pratt and his second wife of 14 years live in Daytona Beach, FL, where he is a part-time consulting engineer for Dickens & Associates. During WWII he was in the "SeaBees" and retired in 1963.

Oursa Dagavarian of Park Ridge, NJ, retired from Columbia University Medical School after 30 years in medical instrumentation. His "youngest" graduated last year from Goucher College. Marj (Church) Honer is a retired librarian and keeps busy with painting, leaded glass, gardening and volunteer work at the hospital in Portland. Her daughter, Cheryl, and her daughter's husband, Terence Hickey, have a daughter, 10, and a son, 5. Marj's son, Stephen, and his wife, Faith (Carter), both '72, live in Lynnfield, MA, where he is a bank branch manager and she teaches. They have a two-year-old son.

You may have seen the article in the October 3, 1980 issue of *U.S. News and World Report* entitled "Managing Your Money — Profits from Trees." Retired Marine Corps Brigadier General Clayton Totman's tree farm was featured.

Reunion, June 1981

36 Dorothy (Jones) Smith
One Taylor Lane
Portsmouth, NH 03801

Mildred (Sawyer) Connors retired last June after 30 years at the Harvard College's Widener Library. Her son, John, Jr. lives in California and came east last winter to visit his children, Kathleen, 8, and Johnny, 7.

Faith (Holden) Young lives in West Gouldsboro with her mother and husband. They have two sons and five grandchildren. Arlene (Merrill) Bickford and husband, Kenneth '35, retired to East Eddington to live in the old family home with her mother. Their son lives in Texas. Rena Allen lives in Millinocket where she taught in the high school until retirement.

Margaret (Hall) Hook writes, "I retired as reference librarian, Madison Hts., MI, Oct. 18 and have moved back to South Thomaston. I haven't seen a Maine winter since graduation, having lived in Detroit and Birmingham, MI most of that time. I haven't attended a reunion since 1941, the year Arnold and I were married. (He died in 1968.) Count me in this year for reunion. I have kept in touch with Lee (Dorr) Wiley, who now lives in California."

From Lawrence Ives: "I retired at 55 from G.T.E. Equipment Development Plant in Salem, MA and have been enjoying Crystal Bay in Palm Harbor, FL."

Elinor (Hill) Hinman writes: "I've lived at this address (4408 N. Gulf Circle, North Fort Myers, FL) for the most consecutive years in one place since I graduated! I have lived here since it was built as a winter home in 1966, the year my husband died. I have three children, Jane Ferguson of Hooksett, NH; Phillip Hinman of Brookfield, WI; and Jeffrey Hinman of Rangeley, ME, and four grandchildren. I'm hoping to be at the 45th reunion."

From Madelyn (Dyer) Conley, "I went on another two-week trip to Europe: Germany, Austria and Switzerland. Now planning another 'round-the-world cruise on the *Queen Elizabeth II* for two months. I leave L.A. February 1st."

Bob's report: "A capacity crowd of 56 Maine alumni braved the fog to attend the fall meeting of the Cape Cod Alumni Association and welcomed our new UMO President and his wife. At the Wychmere Harbor Club, Harwichport, Dr. Paul Silverman outlined his hopes for Maine in the '80s. He said the University's high standard of excellence is 'the best kept secret in the State of Maine.' Hal and Henny (Cliff '37) Woodbury led the '36 delegation, which included Jim and Alice (Campbell) Wakefield, Henry and Janet Little, Charlie MacLean and his wife, Bob and Alice Burns, Albie and Ginny (McGuire '39) Doherty."

It is with sadness that I report the passing of three classmates; Frederick Lunt of Presque Isle, Capt. Roger D. Hutchins of Cape Porpoise, and Kay Hoxtor who was class secretary.

Dot (Packard) and Jim Hull travel to Arizona, California, Mexico, returning via Texas and Florida. Dot writes that Alice (Crowell) Lord will speak at Maine Medical and plans a southern vacation this winter.

Late news will go into the summer column. See you in June!

37 Hope (Wing) Weston
Case Road
East Winthrop, ME 04343

Congratulations to our class president, George P. Hitchings of Darien, CT. At the UMO Homecoming, he received the Career Award given by the G.A.A. (see *Winter Alumnus*) This award is given to those graduates distinguished in their profession. He often has been cited as one of the top ten economists in the country. The Hitchings family's connections with the University have spanned more than a century. George is vice president and director of McKay-Shields Economics, Inc., one of the nation's oldest and largest independent consulting firms specializing in management economics. Congratulations also to Harold E. Young, who was the first American to be awarded Germany's Burckhardt Medal at a ceremony at the University of Göttingen. Harold is a forest research scientist in the UMO School of Forest Resources. He earned the award for his pioneer work in forest biomass.

Dr. Robert Ohler is now practicing rheumatology in Augusta, ME. My thanks to Audrey (Bishop) Thibodeau for sharing news of the mini-reunion held at their camp at Long Lake, Sinclair. Barbara (Lancaster) Raymond still works at the Cascades in Saco. At the pot luck supper of the Portland UMO Alumni, Barbara saw Phyllis (Dimitre) Peterson, who was unable to attend the reunion. Carol (Stevens) Burke participated in the quilt exhibit held at Bowdoin last summer. William I. Kierstead retired after 39 years with the Central Maine Power Co. He joined CMP in 1941 as an analyst at Mason Station in Wiscasset. He became superintendent in 1955 and assistant to the superintendent of steam operations in 1975. Bill and his wife, Ruth, have a son and a daughter.

38 Jo Profita
149 Dartmouth St.
Bangor, ME 04401

I've had an abundance of mail, some of which will have to spill over to other columns. So refreshing to write when he read the article in the fall issue of the *Alumnus* concerning the Stein Song. Adelbert Sprague '05 was band leader, Lincoln Colcord '04 wrote the lyrics and Rudy Vallee '25 popularized the tune. Gil remembers during band practice when Sprague arrived with Lincoln Colcord and asked that the Stein Song be played. Gil, by the way, retired from General Electric Co., installation and service engineering, on Jan. 1, 1980, after 38 years and 5 months of employment. If there is any sadness, it's that his own annual contribution to the Alumni Fund can no longer be matched by the Corporate Alumnus Fund of General Electric.

A very sad note from Mary (Deering) Wirths — her husband, Roland, died in December, 1979. He was a veteran sportswriter and sports editor for the Guy Gannett newspapers. Classmates retiring include Vinton Prince, after 32 years in engineering design with Mobil Research and Development Corp. at Paulsboro, NJ, and Art Smith from the Monsanto Co. in 1978. He has spent two years with Management and Training Systems in St. Louis, consulting in Indonesia, Puerto Rico and Canadian N.W. Art and Betti will return to Orr's Island this spring. A note from John and Miriam (Hilton) Coffin advises that John will retire soon and they will live in Kensington, MD.

From Norma (Lueders) Baker's Christmas note: she has studied economics and investments and is now doing volunteer work advising families about financial and sociological problems. She is active with garden club, church work, is taking Bible courses. Next year she plans to add Hebrew and German classes.

39 Polly (Davee) Hitchings
3 Half Mile Road
Darien, CT 06820

Roommates 40 Years Ago — Four men to a room was not uncommon in 1936, when these classmates shared Room 303 of Hannibal Hamlin Hall. Here's how they look now, and this is how they identified themselves to a photographer at their 40th Reunion (from left) Harold "Doc" Gerrish, Harold "Doc" Higgins, Arlo "Doc" (or "Gil") Gilpatrick, and Franklin "Fluff" Gerry.

40 Alice Ann (Donovan) Poeppelmeier
650 Sibley Forest Drive
Marietta, GA 30067

From the news I gathered at reunion last June: **Arthur Richardson** was with us at our 30th and 35th. He lives in West Chester, PA and has worked 34 years as a Fellow Design Engineer with Westinghouse Electric Corporation. Art plays golf and get in some trout fishing in Maine. **June Phelps Dyson** and her husband, Al, fly their own plane. They live in Canaan, CT and have one son and two daughters and welcomed a fifth grandchild in March, 1979. **GINNY PEASE DOGHERTY** is living in Augusta with husband, Dana. Ginny retired from teaching in 1976 and now enjoys golf, bridge, traveling with her husband, son, and daughter. They see **Polly and Roger Cotting of Hallowell**, and travel with **Priscilla and Harry Nelson**. Roger retired from John Hancock after 27 years. Their two sons, Chuck and Roger, are engineers for Boston Gas and Monsanto, respectively.

Bill Chandler won the prize for most grandchildren at reunion. Bill is retired from Wright Aeronautical in Paterson, NJ. He worked with **Harlow Adkins, Dick Morton, and Bill Bower** until 1946. Then he came back to Maine to work for Maine Steel and S.D. Warren Company, a division of Scott Paper. Bill and Anna have four daughters. **Dick Goldsmith** and his wife were at reunion. They live in Chevy Chase, MD. Dick has worked 28 years for the U.S. Geological Survey and they have three children, Stuart, Kathryn and Charles.

Don Smith and wife Glenna left Presque Isle to attend his first reunion. Don coached track at PIHS. Don and Glenna's son, Steve, married Sylvia Gartley, daughter of **Myron Gartley**, a retired farmer. Myron works with Boy Scouts and area potato farmers. His three children all have red hair. **Nat Doten** announces a new grandson, Hans Espen Christensen. Nat's daughter, Deborah is '73 and her husband, Tom Christensen '70.

Paul Bird, town manager of Monmouth, ME, is studying at Maine to become a certified public accountant. He also attended Oxford University in England after primary schools in Africa and Southeast Asia. **Henry Hathaway** said he was sad to miss "rubbing elbows" with old friends. His daughter, Lois, and her husband, William Scherer, live in Mt. Vernon, WA, 150 miles from Mt. St. Helens. Another

daughter, Margaret Klatt, is a hospital administrator near Cold Springs, NY. Son David, a Ph.D. in astrophysics, is a research scientist in Boulder, CO. Son Paul is in the Air Force stationed in Japan. Their youngest son, Michael, is a musician in Boston. Henry's wife, Ruth (Colby '41) teaches in Lunenburg, MA. The Hathaways live in Fitchburg, MA.

Fred Johnston and his wife live in Gray, ME. He retired after 30 years as a naval aviator. **Earle Bessey** lives in Waterville and announces his son, Chip, has returned to the family business. **John Marsh**, Washington Depot, CT, was a forester for 17 years, now first selectman of Washington. His wife is a librarian. **Bob Murphy** lives in New Hampshire where he is clerk of courts in the Superior Court of New Hampshire. Bob retired from the service in '68 after 29 years. The Murphys have three children. Happy Summer.

Reunion, June 1981
41 Isabelle (Crosby) Shipman
Star Route #1
Wolfeboro, NH 03894

Frances (Horne) Millner's daughter Susan sent invitations to her wedding in two languages — English and Danish. The wedding was held here at the Cotton Mountain Community Church. The mother and aunt of the groom, Ivan Nielsen, were here from Denmark. The couple lives in Aachen, West Germany.

Class president, **Connie (Philbrook) Leger**, says she and Nancy '42 were able to get away from the Inn for three weeks in the Hawaiian Islands. They visited **Bill '44 and Zoe (Pettengill) Alexander** while there. Connie's daughter, Ann, is a speech pathologist in Kankakee, IL. Her son, Larry, studies hotel management at UNH.

Get-well wishes to **Helen (Wormwood) Pierce**, who has had several knee operations. **Ernestine (Carver) Johnson** and husband Richard have retired to South port. **Wil and Fran (Sawyer) Alford** climbed Mt. Washington. **Clarence E. "Gene" Emery**, who has been with the U.S. Government for 38 years, 25 of them with Walter Reed Army Institute of Research in Washington, DC, has no plans to retire.

Edith (Cousins) Parker suffered an accident in 1965 which left her a paraplegic. Her son graduated from Lowell Tech. and is an engineer with G.E.; three daughters, Cathy, who studied flute at New England

Conservatory of Music and now lives in Virginia; Valerie, a graduate of Bridgewater State, teaches nursery school in Cotuit, MA; and Flossie is an operating room technician in Pittsfield, MA. Edith and her husband Harold have ten grandchildren. The Parkers hope to leave their home in Lee, MA to come to Reunion.

The latest from **Betty (Gammons) Hazam** is that all four of her children are now married. Her son, John, was recently married in Alaska, after 10 years in Africa studying wildlife management. **Walter and Charlene (Perkins) Strang** traveled to St. Maarten, Portugal, and Spain last year to gain firsthand knowledge for Charlene's travel business.

Congratulations to **Robert Tackaberry**, who received the Distinguished Engineering and Science Award from UMO's College of Engineering and Science. He is director of technology with American Optical Corp. **Ruth Briggs** was honored for her 35 years with Lithgow Library in Augusta. Ruth has earned master's degrees in both English and library science from UMO, and is currently serving as cataloguer.

Following a long and distinguished legal and political career in Augusta, **Brooks Brown, Jr.** has recently opened a law office in York. **Peter Skouffis** writes that he is working in Rome, Italy, as Assistant Director General for Administration and Finance with the Food and Agriculture Organization of the United Nations.

The class of 1940 had the largest attendance at Reunion in June.

42 Mary (White) Griffie
9016 Raintree Lane
Matthews, NC 28105

43 Don and Olive Taverner
10 Cushman Street
Augusta, ME 04330

Two of our classmates were honored at ceremonies held at the University last fall. **Bertis L. (Bert) Pratt**, received an award for loyalty and service to UMO. Bert is Assistant Director of Admissions at the University.

Dr. Waldo M. (Mac) Libbey, a member of the electrical engineering faculty for 37 years, was cited for outstanding achievement, and given the Ashley S. Campbell Award. It reads: "Mac Libbey has distinguished himself as a teacher."

The Laconia, NH *Evening Citizen* reports that **Clifford W. Birch** is a state representative, and retired as chairman of Birch Bros. Southern, Inc. of Waxhaw, NC. He built the family-owned manufacturing business from \$200,000 in annual sales to \$2.5 million at the time of his retirement.

A closing word from the **Taverners: Olive** is a learning disabilities teacher and Don is semi-retired and active in Maine humor presentations and local and state politics.

44 Dr. Frank P. Gilley
Box 177 RFD #1
Brewer, ME 04412

That this column is written about three months before publication has its pros and cons, but today I appreciate it as I sit at Tip Top with the woodstoves going and the temperature outside at -11° F. I dream of spring, good things like green grass, smelting, dandelion greens, fiddleheads and the return of *Salmo salar* (Atlantic Salmon) to our rivers. After completing this column I shall return to the fly-tying bench to attempt the ongoing challenge — to tie a fly that salmon cannot refuse. In the meantime I'll enjoy the winter sports and keep the home fires stoked.

We are sorry to report the passing of **Richard Nelson Pratt** of Andover, MA. **George and Helen (Clifford) Millay**, of Bowdoinham, say their energy efficient home looks great. Helen mentioned that **Olive (Bradbury) Landry** died in April, 1980. We regret to hear this.

Lawrence Soule writes that he is retired from teaching and coaching and is dividing his time between Palermo and his hunting and fishing camp in Winn.

In October the *Kennebec Journal* featured **Richard A. Morrill** who ran for reelection to the Augusta Board of Education. Dick is a hydraulic engineer and has worked 34 years for the U.S. Geological Survey. Dick was captain of the Black Bears' 1943 football team. The *Bangor Daily News* reports that **Carrie Rowe** won the Columbus Day Outstanding Citizen Award. Carrie retired from teaching but volunteers at St. Joseph Hospital. Carrie founded the first girl scout troop in the area and is now Executive Director of the Abnaki Council. Carrie has just returned from a trip to Hawaii.

W. Laird Harris III, superintendent of the Portland Terminal Company, has been with the Maine Central Railroad 29 years. He spent 16 years in engineering and 11 years in charge of all operations at the terminal.

45 Babs (Haines) Pancoast
260 Edgebrook Dr
Centerville, OH 45459

Best wishes to all of you for a happy, healthy and successful 1981! **Carolyn (Chaplin) Grant** has accomplished her "master plan" after 11 years as dietician at Mercy Hospital. Her daughters, Linda '70, and Cynthia '73 are both married and have children.

Russ '44 and **Barb Higgins Bodwell** took a trip to Hawaii, partly for business purposes. Barb chaired the Designer Showcase at the Mellon-Bruce estate and raised \$52,000 to benefit the Salvation Army. Steve '44 and **Isabel Ansell Jacobs** plan a "scouting trip" to Arizona and then to California this summer to meet their grandchild-to-be.

John Marriott and Mary live in Burlington, VT and have four children and six grandchildren. Last Christmas, they visited their daughter, Cam, in Guam with stops in Hawaii en route. In June, John had a double heart by-pass operation to correct a developing problem. He now plays tennis and sings with a barbershop quartet.

Barkley Goodrich lives in Brooklyn, CT and works as a sales engineer for TEK Bearing Co. The oldest Goodrich son, Peter, is teaching English at Marburg University in West Germany. Bark wants to travel to Marburg to meet the first grandson in his family. **Jean Morse Turner** still lives in Caribou, ME and has worked seven years in nursing at the Community Hospital in Fort Fairfield. Jean's only daughter, a junior in high school, was killed in an auto accident last year.

Congratulations to **Rebecca Bowden Herrick**, who earned a Ph.D. from UMO last summer. Becky is associate professor of history at UM at Presque Isle, where she has taught since 1963. In other news of UMPI, in November, Dr. **Constance H. Carlson** was appointed acting president. Dr. Carlson received her M.A. degree from UMO in '45 and has served on the faculty there since 1962. She is a former dean at Bangor Community College.

Henry Bacon of Oakland has worked 35 years with Central Maine Power Co., where he is a senior civil engineer. Henry also has served as selectman for the town of Sidney, director of SAD 47 and as a member of the Sidney planning board. Another CMP employee is **Ralph Bean**, Manager of Engineering. **Norma Hoyle Boothby** is secretary to the Board of Directors of the Maine Teachers Association Credit Union. She was a charter member of the credit union and has been on the board since its inception in 1967.

Jo Clark Meloon has taught in Lunenburg, MA for 25 years. Jo's husband, Mert '44, died in 1975, and in 1980, her daughter Nancy's husband drowned in a fishing accident. Jo keeps busy with Salvation Army, Lunenburg Housing Authority and her church. Her son, Scott, works in Louisville, KY.

46 Reunion, June 1981
Betty (Perkins) Stebbins
29 Oxford Street
Winchester, MA 01890

Dave Holmes of Trenton, NJ writes that he saw **GINNY (Tufts)** and **Joe Chaplin** at the Maine vs. Princeton football game. Dave is Director of Consumer Electronics Research at RCA Labs, Princeton.

Mary (Libby) Dresser arranges ski tours. **Gloria Lombard** will retire in June after 34 years of teaching in Wellesley, MA. Gloria lives in Natick, MA and summers in Abbot, ME. **Charles Hass** and his wife are now living in Bangor. Charlie is president and legislative chairman for the Penobscot County Chapter of A.A.R.P. His son, Dennis, and wife, Barbara, are from UMO's classes of '66 and '67, respectively.

Fern (York) Witham has visited much of the U.S., the Orient, and Europe. She worked in South Korea as boarding school dietician. Fern is now in Daytona Beach. **William R. Horner**, and his wife, Suzanne, founded Marlow Hill Services in Hillsboro, NH, a family counseling service.

47 Barbara (McNeil) Marsanskis
29 Miller Street
Belfast, ME 04915

48 Marit (Andersen) Wilson
Box 258
Hampden Highlands, ME 04445

49 Ramona (McLaughlin) Dentremon
46 Cedar Street
East Millinocket, ME 04430

Clyde S. Adams, after 20 years in the U.S. Foreign Service, retired to Tucson, AZ. Two years later, he returned to work in Khartoum, Sudan. He oversees agricultural development along the Blue Nile River.

Thelma C. Robie was honored by Maine's York County Cooperative Extension Service. She lives at 10 Lebanon St., Sanford. **Walter C. Hinds, Jr.** of Sudbury, MA was named senior vice president of Genrad, Inc. Hinds will head a company task force in asset management and chair division boards, including the Development Systems and component test divisions.

Robert C. Haraden was named superintendent of Glacier National Park in Montana. **Dr. Douglas Collins** is now on the staff of Cary Medical Center in Caribou. He specializes in internal medicine.

Dr. Walter C. Murray, a former U.S. Air Force flight surgeon, has been assigned to medical service at the Veterans Administration office at Togus, ME. Dr. Murray was a flight surgeon with the rank of Captain in the U.S. Air Force.

From the secretary: "Our son, Franklin (Chip) Dentremon, Jr., Doctor of Dental Medicine, purchased the practice of Miles A. Brown '56, doctor of medical dentistry in Millinocket, ME. Brown, a graduate of Tufts Dental School, now works in Santa Fe, NM.

50 Ruth (Holland) Walsh
4 Sloop Lane
Mystic, CT 06355

Lorraine Potter '51 gave me some classmates' addresses. For example, **Mary McRae Bolstridge** lives at 355 West Kings Highway, Audubon, NJ 08106. Mary's husband, Leslie, retired as a colonel in the U.S. Army and works for RCA. They vacation in Corinna, ME, where they own a farm. Anyone know where **Dr. Robert C. Webster** is?

LANDMARK PLAQUES FOR SALE — In an effort to raise money for service projects, Alpha Phi Omega is selling distinctively-framed, marble plaques, like the one above, according to designer Bob Fowler. The \$85 pieces, which depict university landmarks, measure about 18 x 24 inches and are bordered in a deep blue. Proceeds will be used for such projects as blood drives, tutoring for prisoners housed in Bangor, bus services and international student orientation, Fowler said. The mementos are available at the Alpha Phi Omega offices, 8 Fogler Library, Orono, ME 04469 (tel. 207-581-7651)

Al Pelletier, PICS

Edward J. Tremblay was promoted to Manager of Navy Marketing at the Bath Iron Works. Ed, who has worked at the Maine shipyard since '58, will direct shipbuilding programs. Ed and his wife live on a small farm at RFD #1, Dresden, ME 04342. Although they did not attend reunion, Ed was on campus in '79 to speak to the IEEE Group about electrical engineering careers.

Leonard E. Minsky of Bangor was elected chairman of the Maine Estate Chamber of Commerce for 1981. Lenny is president of Superior Paper Products of Bangor and Portland. **Maggie (Mollison) and Don McIntosh** saw Lenny and Rene when the Minskys spent time on the coast at their summer home. Lenny and his brother, Norman of Bangor, a Boston University graduate, will endow a faculty lecture chair in UMO's department of philosophy.

Eva (Burgess) and Hank Newell are retired from the Army and live at 1004 Golfside Drive, Winter Park, FL 32792. Their son, Hank II, is in the Army stationed in Germany. The couple's daughter, Brenda, has a full Army ROTC scholarship at the University of Miami, and studies for a degree in applied music. Eva, a licensed realtor-associate, says she saw **Ann (Burbank) and Bob Taylor**, who were vacationing at their condominium in Stewart, FL. Now that the children have moved out, Ann and Bob bought a smaller home at 1294 Maple Street, Plymouth, MI 48170.

Judy (Black '51) and Ken Marsden report that Ken is vice-president, Health Com, a division of Lewis and Gilman, Inc. a Philadelphia advertising agency. They both enjoy their 250-year-old home, "Crossing Creek Farm" at Route 2, Box 317, Titusville, NJ 08560. Ken's hobbies include dog shows and pointing-breed field trial judging. Judy works for a local veterinarian. They have a two-year-old grandson, Jesse.

Charlotte Lenentine Melvin has been appointed coordinator of special programs at the University of Maine at Presque Isle. Charlotte lives in Monticello and has served on the faculty and as Dean of Women at Ricker College. **Crawford Carter** retired from the U.S. Postal Service in July, after 34 years. He and Jean went to Bermuda and now live at RFD #1, Etna, ME 04434. **Paul Payson** retired from the Army in October after 30 years. The last address I have for him and his wife Jeanne is Route 9, Cob Road, Concord, NH 03301. Also retired is **Asa Mace** from the U.S. Department of Agriculture, after 30 years. He lives at 4 Main St., Aurora, ME and works with "insurance, blueberries and lumber."

John Treat is vice-president of manufacturing at AVCO-Lycoming, Stratford, CT. His home is 6 Dogwood Drive, East Hampton, CT 06424. **Jim Wentworth** owns and operates Mountain View Orchards in Hope. He and wife, Phyllis, oversee the yearly making of apple cider and 250 gallons of maple syrup.

Dave and Jan (Scales '48) Cates live at 1442 West Laurel in Visalia, CA 93277. Dave is working as the West Coast I.R. Manager of Sprague Electric Company. **Larry Thompson** wrote to us from 396 Blossom Hill Drive in Lancaster, PA 17601. He is president of the Manheim Manufacturing and Belting Company. How about a Spring note to your secretary to bring us up to date with you?

Reunion, June 1981

51

*Nancy W. Sears
16 Oak St.
Wellesley, MA 02181*

Jim Elliott reminds us of our 30th Reunion in June. Send suggestions for our 30th to reunion chairpersons, **Bernie (Stein) Dillard**, P.O. Box 112, Harvard, MA 01451 or **John Coombs**, 67 Boutelle Rd., Bangor, ME 04401.

Clair Shirley and his wife, Midge, will be at reunion. Clair is with IDS after 25 years as Scout executive for B.S.A. **Bert Campbell** has worked 30 years for the Maine Department of Transportation. **William Moore** is teaching science in Stowe, VT. **Jim Delois** of Augusta was honored for sales accomplishments. **Amo Kimball** lives in Northampton, MA. After 20 years of teaching deaf children, she is now a social worker. She wants to hear from any alums in her area.

Dr. James Sullivan is director of therapeutic recreation and teaches physical education at USM. He was named executive director of the Governor's Council on Physical Fitness and Sports. **Roland West** is plant engineer at Bowdoin College. **Hilda (Livingston) Miller** and **Stan '49** live in Tustin, CA. Stan is director of radar sub systems for McDonnell Douglas at the Huntington Beach plant. Hilda taught special education. She says her former roommates, **Pepper (Burbank) Milbank** and **Liza (Zaitlin) Levinson**, plan to attend Reunion.

52

*Ida (Moreshead) Wiley
RFD 4 Middle Road
Portland, ME 04110*

Ed Lord writes from Lagos, Nigeria where he is working for the Food and Agricultural Organization of the United Nations. Ed has been in Rome, and in '73 went to Addis Ababa, Ethiopia in time for the coup and the Somali War. He says he is not a good socialist; "Capitalists eat better." His sons graduated from American schools in Ethiopia and two then returned to Orono. Ed says prices in the U.S. are low — a three-bedroom house in Nigeria rents for \$50,000-60,000 a year and requires 3-5 year's rent in advance. His address: FAO Representative Office,

UNDP Lagos, Nigeria, One United Nations Plaza, New York, NY 10017, USA. **Bill Currie** was transferred to duPont's international department in Mexico City. He and **Harriet (Johnson)** can be reached at: duPont S.A.DeC.V., Homero 206, Mexico 5 O.F. **Raymond Feasey** is engineering supervisor for Eastman Kodak. He and his wife, Sue, have three children.

Promotions: **Dallas R. Knight** to manager of Fuels Sections, Approval Div. of Factory Mutual Research Corp.; **Gordon H. Felt, Jr.** to director of marketing for overhaul and repair at Bath Iron Works; **Clifford L. Swenson** to president of Seven Islands Land Co., at Bangor. Mayor White of Boston has appointed **Ralph M. Long** to the post of deputy news director. **Malcolm E. Jones** is president and chief executive officer of Bangor Savings Bank. **P. Martin Foley**, IBM vice-president of the General Systems Div., was elected to the board of directors of First Atlanta Corporation and The First National Bank of Atlanta. **Donald E. Burt** was elected vice president of engineering for The Reece Corporation in Waltham, MA.

Richard Ayotte taught a new course of elementary French for Mid-Coast Community College and **Roy H. Gilman**, vice-president of the Federal Trust Co., will teach a new business course in Farmington.

53

*Janet (Hanna) LeBlanc
Box 402
Newport, ME 04953*

Gene Drolet is President and Chief Executive Officer of the Shawmut County Bank in Cambridge, MA. He and his wife, Kay, live in Groveland, MA.

Harold B. Hutchinson, of Brunswick, ME, public works administrator and town manager of Yarmouth, has been elected to the board of directors of the American Public Works Association. He has been a member of the APWA since 1962. **Ben Pike** of Wayne, ME was re-elected chairman of the Maine Publicity Bureau. **Ernest K. Khoury, Jr.** works for the Bangor, ME insurance firm of Halkett, Khoury, & Svendsen. Two of his five sons are UMO grads and one attends Bowdoin. The other two are in high school. His daughter, Mary, will graduate from UMO in 1982.

Peg Given White writes that her son, Tom, graduated from UMO in December. **Barbara Jackson Swanson** won a spot in the Maine Moose Lottery. **Dr. Sharon Leigh Clark** married Glenn A. Gruber in Las Vegas. Sharon, who received her Ph.D. from New York University, is president of her own human resources and environmental firm, Sharon Clark Associates, in Pasadena, CA.

Missionary Peter Gowing
(above, glasses) faces NLF
leaders in the Philippines

54 Marty Barron-Barrett
27 Rock Street
Portsmouth, NH 03801

To make this column more than a press release for banks and insurance companies, here is a look at the life of **Peter Gowing**, journeyman missionary educator. Peter was a history and government major — in his own words “the lucky beneficiary of the Trafford, Jeffrey, Thompson, Nolde, Dow and ‘Machine Gun’ Parker legacy.” While the rest of us slept on Sunday mornings, Peter, also a divinity student at Bangor Theological Seminary, preached in Ellsworth and West Bethel.

After graduation, Peter served as Assistant Force Chaplain, Air Force, US Atlantic Fleet, and in 1960 received a Doctorate of Theology from BU and was commissioned by the United Church Board for World Ministries. (His Ph.D. in Asian Studies from Syracuse University was granted in 1968.) Peter has taught in the Philippines, written six books, edited several academic journals.

In 1974 Peter was appointed Director of the new Dansalan Research Center at Dansalan Junior College in Marawi City, Philippines. The center researches social science development. “Our Christian sponsored institution is not engaged in an effort to make Christians out of Muslims,” he writes, “Our mission is to join forces with the Muslims to bring about a change in the atmosphere of hatred and violence. The Muslim Filipinos struggle for an autonomy which is forcibly denied them.”

“I had every expectation in 1954 that the ministry would, as it did, put me near the troubled, the sorrowing and the dying. But I had no idea that the ministry would also put me on the decks of warships, face to face with rebel guerrillas, and in partnership with colleagues doing humane work under inhumane circumstances. But there is life *always* pursuing and overcoming.”

John DeWilde (143 King Richard Dr., Boxford, MA) has been appointed vice-president for human resources at GTE in Danvers.

55 Hilda Sterling
472 Apple Valley Drive
Belford, NJ 07718

25th Reunion, June 1981

56 Susan (Stiles) Thomas
5 Spruce Street
Winthrop, ME 04364

Martha (Buw) Morgren earned her M.S. in library science from Oregon State University, and spent 17 years as editor-librarian in OSU's Dept. of Fisheries and Wildlife. She now teaches children's literature there. Her husband, Joel, a soil scientist for an environmental consulting firm, and she spent last summer in the High Sierras north of Yosemite. They have a daughter, Melissa, 18, and a son, Lars, 21. Augusta's **Patricia “Pat” Doten** was re-elected to the Board of Education. **Judy Curtis** completed a term in the State House of Representatives where she served on the Health and Institutional Services Committee. Judy works with the Milbridge Public Library and local historical societies. Her husband, Chester, tends the family farm.

57 R. Jiggs Cecchini
4 Heather Lane
East Granby, CT 06026

Paul Buckley, a partner of Longley Associates, Lewiston, has been nominated as Secretary of Million Dollar Round Table's Executive Committee. If tradition is followed by the 53-year-old international organization, Paul will be appointed in June and become president of MDRT in 1983. In addition, Paul has become the firm's new general agent for New England Mutual Life Ins. Co. Paul, his wife, Anita, and four children reside on 4 Mountain Ave. in Lewiston.

David Ward, Rockville Consulting Division, is the first man to reach both the North and South Poles. For his accomplishments, he has been awarded membership grade of Fellow from the Explorers Club and the Royal Geographical Society. He also received the Order of the British Empire for his Kamet Expedition in 1978. Dave, the team captain, was one of two Americans to scale the 25,447-foot Kamet in Tibet. This was the first assault on Kamet since a

British team succeeded in 1933. In 1980, Dave was part of a group to climb Mount Ararat in Turkey. Dave was privileged to visit, photograph and climb places not explored since before WWII. National Geographic has possession of his slides; they hope to publish them later this year. Dave sees **Paul Boncher** from time to time.

Captain **Bud McIntire** was promoted by Delta Air Lines to Assistant Manager, Flight Operations -Dallas/ Fort Worth. Bud has been a line pilot since 1961.

Arthur H. Hamlin has been named president of MGI International - a Wyckoff, New Jersey based firm dealing in air pollution control and processing equipment for the graphic arts. Art and his wife (Marianne Schmidt '59) and their two children, Suzanne, 15, and Paul, 12, live in Mendham, NJ.

H. Maxwell Barry, Jr. of Cheshire, CT has been appointed division manager for residence services for SNETCO. He is responsible for residence telephone service in the entire western half of the state.

Don E. Douglas was named outstanding engineer for 1979 by International Products, Electronic Devices, Rockwell International's Manufacturing operations in Cedar Rapids, IA.

Marjorie Janicola sent along two letters she received. **Rodney Ross** was the escort for 16 Maine teenagers from 10 different schools on a Navy ship for a 1000-mile trip from Charleston, SC to Bath, ME. The ship was the *USS Trippe*. Rod will save his sea stories for another issue.

Richard Dillenback writes that he is ready for his fourth trip to Europe in 20 years and will depart for the American community in Heidelberg on July 24 to spend three years. I serve with a branch of the American Red Cross that provides emergency social work services to the armed forces and have found myself for the past 16 years in many stateside locations, as well as Vietnam, Korea, and three times in Europe. This time my 15-year-old son John will join me. John's home is in Swanville, ME together with his 16-year-old sister Jane, who will be visiting us from time to time. John will be attending the American schools in Heidelberg.

After graduation I continued to work for the CBS affiliates in Bangor, WGUY radio and WTWO-TV until entry into the counter intelligence corps of the U.S. Army. After a trip to Ethiopia to see Pascal Waldemariam, my former college roommate, I came back to a teaching job in what was then Crosby High School in Belfast. I became a national staff member with the Red Cross. During the 1971-72 period, I earned a masters degree at Boston University in counseling and have since volunteered at community mental health centers.

Some readers may find themselves in that fair tourist city of Heidelberg during the next three years. Look for the American hospital and my office there. The mailing address is: American Red Cross, APO NY 09102.

Loren Sibley has accepted the position of Athletic Director at Mattanawcook Academy. For the past 11 years, Sib has been driving instructor and varsity basketball coach at Wiscasset.

Dr. & Mrs. Howard Alden and their children visited Maine this summer. Howard is on the faculty of Colorado State University, College of Forestry. He is chairman of the Colorado State Parks Board.

Stewart Smith, Maine commissioner of agriculture, was the speaker for the Twin County Ext. Assoc. annual meeting. Since graduating in '57, he managed his father's farm where he has a herd of registered Holsteins. He is past president of the Lisbon Alumni Association, member of the Lisbon J.C.'s, and an Agway Petroleum committeeman.

He has also served on the Cohen Agricultural Advisory Committee and the Republican Androscoggin County Committee. He chaired the Cohen-Snowe election committee. Smith and his wife, Shirley, have five daughters.

Bob Smith writes that he has changed addresses but not “the game;” still practicing internal medicine and cardiology on Long Island.

Bob Margolin's son, Billy, is now a freshman at UMO; a good-excellent hockey prospect.

Maine Teacher of the Year

She has received 125 letters of congratulations and several bouquets of flowers. The State Board of Education gave her a ceramic apple. She has been besieged with speaking requests.

These are just a few of the compliments Sarah G. Chipman '57 has ushered in since she was selected Maine Teacher of the Year from among 13,500 possible candidates. A panel of judges from the Maine Department of Education and Cultural Services, Maine School Management Association, and the Maine Teacher's Association have submitted Chipman's name for national competition.

The Dexter Regional High School English teacher says of her 23-year profession, "Very honestly, I cannot imagine doing anything else."

Chipman graduated from UMO in 1957 with a bachelor's degree in English and in 1966 with a master's degree in education.

"I prefer the atmosphere in which my students and I work to be congenial but controlled," she said about her classroom manner. "I want them to listen to what I have to say . . . and to question my ideas."

Ben Day works for the Vermont Fish and Game Dept. as Director of Wildlife. He is still with the Army National Guard and is Commander of one of the two tank battalions in the state. Ben and his wife, Lorraine, have twins (Janet and Judy) at UVM School of Nursing. Daughter Patty is a high school senior.

Our class president, Dr. Wes English, reminds you that our 25th reunion is only a year away. Anyone in the Bangor area interested in serving on the reunion committee is asked to contact Wes.

58 Jane (Ledyard) Lazo
49 Martin Street
West Roxbury, MA 02132

William O. Farley was appointed Director of Financial Communications for Con Edison of New York. The GAA honored **William P. Palmer III** with the coveted Black Bear Award at Homecoming ceremonies.

Joseph McBride is teaching math and science at Machias Memorial High School. **Gene Carter** took the oath as the 93rd associate justice of the 160-year-old Maine Supreme Judicial Court. **Dave and Nancy (Wakely) Schlieper** now live at Rte. 1, Box 192, Milo-White Road, Jericho, VT 05465. The Schliepers will soon be grandparents.

Rosalie Chase Ober writes that she graduated from UMO with a M.Ed. in special education. **Mark and Jane (Quimby) Biscoe** write that Mark teaches at the Fenn School in Concord. Teaching English and Latin at King Philip Regional High in Wrentham, MA is **Roberta White Negus**.

59 Nancy (Roberts) Munson
30 Tanglewood Drive
Glastonbury, CT 06033

Dick and Ann (Adams '61) Collins write from Tokyo that Dick has been named President of American Life Insurance Company in Wilmington, DE. **Pat (Stiles) and Joe Cuccaro**, from Fairfax, VA, say Joe has completed his 20th year with the Army. **Sally (Kyle) Rooney** of Houlton works for the Nature Conservancy and Maine Critical Areas program. She investigates endangered species living near the proposed Dickey-Lincoln Dam. **Earline (Soucier) Grandmaison** of Van Buren has been appointed to a state-wide Advisory Council for the Maine State Department of Education and Cultural Services.

Paul Desmond of Falmouth was re-elected to the Board of the Professional Insurance Agents of New England. **Jacquelyn Perry** was elected to the School Board in Scarborough. **Ronald Thurston** of Winthrop has been appointed executive vice-president of the Maine Health Care Association. **Beverly Kincald** is teaching at the Islesford School. She has also served in the Peace Corps in Africa.

Reginald Cyr, of Santa Barbara, CA, was presented the *Polaris, Poseidon, Trident* flag by Commander Bancroft of the U.S. Navy Strategic Systems Project Office. Cyr is president of Sonatech, Inc., a company manufacturing electro-acoustic equipment. Reg lives at 1442 Crestline Drive, Santa Barbara with his wife, Clare (Tardif). They have four children.

Peter Sawin of Swampscott, MA, has created a one-man band. He also coaches varsity swim teams. Pete and his wife, Shirley, live in Swampscott. **Lyndal Winslow** married Margaret Sokop Fulton. They are living on Yvonne Drive, Dalton, MA. Margaret teaches at Wahconah Regional H.S. and Lyndal is president of Hill Engineering, Inc.

60 Judy (Ward) Lessard
542 Mitchell Road
Cape Elizabeth, ME 04107

The new year finds two of our alumni with University appointments. **William J. Munsey** was named director of admissions at UMO and **Richard Sturgeon** has a

new job as director of advising and information at USM. **Sonora Samway** continues to teach in Columbus, OH, while **Joan (Phillbrook) Miller** is tutoring in special education in Bedford, MA. **Priscilla (Anderson) Hare** of Cape Elizabeth, ME has returned from a seminar on drug and alcohol abuse.

Jo-Anne (Bagley) Truslow works as secretary in medical records at Beverly Hospital, Beverly, MA. **Frances (Zoldis) Fierro** of 5205 N. Rosemead Blvd. #5, San Gabriel, CA writes that she is teaching her 18th year and visits Maine regularly.

We announce the marriage of **Gail (Carter) Harvey** and **Larry D. Cilley '61** on November 28 in Gardiner. Gail represents ward three on Gardiner's city council, and is a member of the Maine State Museum Commission. She's also on the board of directors of Kennebec Valley Mental Health and the Gardiner Board of Trade. Larry, who earned a master's degree at Wharton, is a former city manager of Bath and owner of Seguin Realty there. He is treasurer of the vestry of Grace Episcopal Church, Bath. The couple will live in Gardiner.

Farming on the Mississippi River Bluff in Bay City, WI is **Betty (Lunt) Even**. Betty teaches English and drama and enjoys organic gardening. Also a farmer, **Joe Dion** lives in South Woodstock, VT and works as a jewelry salesman for Balfour. **Sandra Page** teaches second grade, coordinates environmental science for K-3, and resides at 5 Timber Lane, Brattleboro, VT.

Staying close to our alma mater is **Dave Trefethen**, Star Route, Bennoch Rd., Orono. Dave is married, has three sons, and is a construction engineer for H.E. Sargent, Inc. **Doris (Paradis) Hallee** works as a dietician. Doris and her husband operate a solar heating business. They live at 26 Ervin Drive, Wappingers Falls, NY.

61 Reunion, June 1981
H. Ann (Lynch) MacKinnon
Route 1, Riverside Drive
Augusta, ME 04330

Army Lt. Col. **John D. Robinson** graduated from the Naval War College in Newport, RI. John has been in the Army since 1961. **Edward P. Morrison**, president of Morrison Geotechnical Engineering, has been elected president of the Consulting Engineers of Maine. **Elton Knowles** is now superintendent of the schools in school administrative unit 49 in New Hampshire. Since 1968, **Gail H. Schade** has been assistant professor of English at Thomas College in Waterville.

Southern Maine Vocational Technical Institute tells us that **Larry Glynn** is the school's new basketball coach. Larry has taught mathematics at SMVTI since 1978. **Blaine Grindle** is the new sales and marketing manager for Transistor Electronics, Inc., in Vermont. He resides in North Bennington with his wife, Ginny, and their children, Bud and Gail. Returning from an overseas assignment in Brazil is **Donald W. Gunn**. He is now in Midland, TX where he is a geological advisor with Exxon. He and his wife, Dolores, have three sons, Jim, Scott, and Todd.

After teaching 43 years, **Anna Wolfe** retired in 1968 to Waldoboro, ME. A June wedding in Brunswick joined **Kathleen Marie LeMay** and **Clifford Dennis Stockford**. Kathleen teaches in Portland. In November, **Larry Cilley** and **Gail Carter Harvey '60** were married in Gardiner. Larry is a realtor in Bath. Gail serves on the Gardiner city council.

If you can't be at reunion, how about dropping me a note? The absence of this column has been because I have had so little news from you.

62 Diane (Ingalls) Zito
24 South Hill Drive
Bedford, NH 03102

A question from **John Collins**: "How many of the class of '62 now work on campus?" I've counted eight. Here they are:

**We're
here
to help you**

**Merchants
National
Bank of Bangor**
Member F.D.I.C.

Telephone
942-4801
to reach all branches
and departments

John is the present Registrar at Orono. He and his wife, Eileen, have one daughter, Kathleen, who graduated from URI last June. **Adrian Sewall** is Director of Career Planning and Placement. He lives in Brewer with his wife, Audrey, a teacher. They have two children, Nathan, a freshman at UMO, and Andrea, a sophomore in high school. Adrian has just completed a term as chairman of the Scholarship and Awards Committee for Phi Kappa Phi Honorary Society. **Peter Dufour** is Superintendent of Grounds and Services on campus. He and his wife Sara (Pearson '61) have five children. Peter served six years on the Old Town City Council, is a member of the Old Town Housing Authority, a trustee for the high school, and a member of the State of Maine Plumbers Examining Board.

Nellie Gushee is an Extension Educator and Nutrition Specialist. She also works as cooperating Professor of Human Development on campus. **Earsel "Russ" Goode** resigned his position of Director of Space and Scheduling at Orono to devote time to his job as president of Coal Energy of Maine, Inc. in Bangor. As I've noted before, **Dwight Rideout** is Dean of Student Affairs, **Tobias LeBoutillier** is an announcer on the Maine Public Broadcasting Network and **Skip Chappelle** is Head Basketball Coach and physical education instructor. **Myrna (Flewelling) McGaffin** has been appointed counselor for Special Services at UM Presque Isle. She is now serving a second term as treasurer of the Maine Personnel and Guidance Association and is an active member of the Aroostook Mental Health Center's alcoholism advisory committee.

Harold Mailman has been appointed co-director of the on-campus division of Husson College Continuing Education at Bangor. Harold served 10 years as the director of the Northern Maine Vocational Technical Institute. He was also coordinator of Maine Vocational Schools, director of Trade and Industrial Education and Manpower Development. **Carl Winslow** has been named assistant superintendent of schools in Yarmouth. **Charles Butts** has joined the Maine Savings Bank as regional manager for the Oxford County branch at South Paris. Charlie has been a stockbroker in Boston and Bangor and was most recently with the National Bank of Norway, ME. He and wife, Nikki, live in Norway with two daughters.

Patricia (Johnson) Bonney writes that she is now teaching high school mathematics in Freeport, TX. Last year Pat earned a fellowship in residence from the National Endowment for the Humanities in Austin, TX. Pat has two children, Scott, 19, a freshman at the State University of NY and Karen, a high school senior. **Gordon Small** has been named Director of Lands, Watershed and Minerals Management in the Milwaukee office of the U.S. Forest Service. Gordon has been with the Forest Service's Washington Office since 1977. His previous

assignments have been in Atlanta, the Ozarks of Arkansas and the Daniel Boone National Forest in Kentucky.

David Lamb has taken leave of absence from the *Los Angeles Times* and is a Nieman Fellow at Harvard. He has just completed four years as a foreign correspondent in Africa. **Thomas Shields** notes that he has just received his M.A. in journalism from the Univ. of Arizona in Tucson. His new address is 3106 Wellington Rd., Alexandria, VA.

63 **Parker & Penny Harris**
325 Garland Street
Bangor, ME 04401

C. David Richardson has been named director of sales in U.S. and Canada, for Pigments and Extenders Group of the Minerals and Chemicals Corporation at Engelhard. He lives with his wife and two children in Annandale, NJ. He joined Engelhard in 1964 and is a member of several pulp and paper industry associations. **Charles L. Freeman** of Yarmouth has been named an executive engineer and to the management committee at Neill and Gunter, a Portland consulting engineering firm. He helped develop a 100-cord-per-hour whole tree chip screening system.

The law firm of **Douglas M. Smith**, Dover-Foxcroft, has merged with Eaton, Peabody, Bradford and Veague, of Bangor. Smith has been a member of the Maine State Bar since 1975, and served three terms in the Maine Legislature. He is a probate judge for

There are many good reasons why you should look at Gould Academy. The first: it's in Maine!

More than a third of our students come from Maine. They can't tear themselves away. The rest come from all over the world to enjoy what Maine and Gould have to offer.

We don't have to tell you about Maine. It's just a great place to live . . . and to learn. Gould Academy is an intellectually challenging coeducational community of about 200 students and 30 adults committed to the idea that education is a serious yet enjoyable pursuit.

We offer courses in all the traditional preparatory school subjects, plus some unusual ones such as mineralogy, international relations, literature of the sea, and glass blowing. Students can pursue their interests in depth, in sequential programs that develop their learning skills. Our exchange program enables students to spend a term in France, Germany, or Mexico.

And of course, we make the most of the cultural and natural advantages of our location in the Mahoosuc range at the edge of The White Mountain National Forest.

For further information, write:

Edward Hitchcock, Box M, Gould Academy, Bethel, Maine 04217.

Piscataquis County. Douglas and wife Cartha have two children, Deron and Amy. **Judith Champagne** of Casco, ME, is a business education teacher in Gray. **Kathryn C.
